Conifers									
<i>Cephalotaxus</i>	'Duke Gardens'	Japanese Plum Yew	8	1 Gallon	\$ 22.00	2-4'	2-4'	Full sun to part shade	The cultivar 'Duke Gardens' was discovered at Duke Gardens in Durham, North Carolina and is noted for its compactness and vase shape. Ideal for the southeastern United States, as it tolerates both the summer heat and humidity unlike other yews, 'Duke Gardens' has a dense spreading mounding habit. Japanese plum-yew works well in small spaces, a woodland or shade garden as an accent or planted in mass along a border.
<i>Cephalotaxus</i>	'Fastigiata'	Japanese Plum Yew	6	1 Gallon	\$ 22.00	8-10'	3-5'	Full sun to part shade	A dioecious coniferous evergreen that typically grows as a shrub to 5-10' tall, but may be trained as a tree that could eventually rise to as much as 20-30' tall. Growth is slow, however, and it often takes as much as 10 years for a plant to reach 4' tall. Excellent tolerance for both shade and hot weather make this species an interesting substitute in the southeastern U.S. for true yews (Taxus) that usually struggle south of USDA Zone 7. Accent, group or mass. Excellent evergreen conifer for shady locations in the landscape.
<i>Chamaecyparis obtusa</i>	'Chirimen'	Chirimen Hinoki Cypress	6	1 Gallon	\$ 22.00	4'	2'	Full sun to part shade	Chamaecyparis obtusa 'Chirimen' is a dwarf hinoki cypress with rather unusual foliage. 'Chirimen' sends up small shoots of unusual, compact growth that is quite attractive in the landscape. 'Chirimen' is a great option for a centerpiece in small rock gardens or fairy gardens. Chamaecyparis obtusa 'Chirimen' was named for the silk fabric that is used to make kimonos.
<i>Chamaecyparis obtusa</i>	'Fernspray Gold'	Hinoki Cypress	4	2 Gallon	\$ 30.00	8-10'	6-8'	Full sun to part shade	Cheerful, lemon-yellow fern-like foliage sprays from the branching, evergreen foliage can darken to hues of green when shaded, disease and pest resistance, low maintenance, vivid addition to landscapes as a foundation planting or on either side of an entryway.
<i>Chamaecyparis obtusa</i>	'Filicoides Compacta'	Compact Fernspray Hinoki Cypress	6	2 Gallon	\$ 30.00	10-15'	4-6'	Full sun to light shade	This fantastic slow growing cultivar has a compact habit with dark green foliage arranged in interesting fern-like sprays. The flattened and narrow tapering branches create a unique texture and make for an excellent garden specimen. This interesting evergreen grows best in full sun but tolerates light to open shade. It adapts to a variety of soils, from sandy sites to clay, provided the location is well-drained. Once established it is very drought tolerant, requiring little to no summer watering even during prolonged droughts.
<i>Chamaecyparis obtusa</i>	'Lynn's Golden'	Lynn's Golden' Hinoki Falsecypress	6	1 Gallon	\$ 18.00	4'	4'	Full sun to partial sun	The layered golden foliage on this easy-to-grow selection remains equally attractive in winter and summer.
<i>Chamaecyparis obtusa</i>	'Nana Gracilis'	Hinoki Cypress	1	1 Gallon	\$ 20.00	3-4'	2-4'	Full sun to part shade	Grow this plant in average, moist, well-drained soils and protect it from harsh winds. It does best in full sun but will tolerate partial shade. In 10 years it will only reach 3 to 4 feet tall but will eventually mature to 6 feet or more with a 2 to 4 foot spread. Young shrubs have a rounded form that becomes more conical with age. It provides winter interest with its graceful, dark-green needles. Use this shrub in small spaces, Asian or rock gardens, containers, or as a specimen. It can also be used in bonsai.
<i>Chamaecyparis obtusa</i>	'Spirited'	Hinoki Cypress	1	1 Gallon	\$ 20.00	8'	3'	Full sun to part shade	New Hinoki Cypress developed by Paul Jones in North Carolina, and is a golden Hinoki that does not burn in sun. The foliage is very lace-like and the plant reminds us of Cham. o. 'Graciosa'. After 15 years one can expect this cultivar to be 8 ft tall and 3 ft wide. A selected seedling of the old timer Cham. o. 'Crippsii' but grows smaller in stature.
<i>Chamaecyparis obtusa</i>	'Verdoni'	Hinoki Cypress	2	1 Gallon	\$ 20.00	6-8'	2-3'	Full sun to part shade	Verdon hinoki cypress has yellow-green, fan-shaped foliage that holds the color well. Use it as a foundation plant, as a specimen in a lawn or alongside a patio, or in shrub borders, hedges, or as a privacy screen. It is a great addition to Asian, rock, or winter gardens, and it can also be grown in a container.
<i>Chamaecyparis pisifera</i>	'Baby Blue Ice'	Sawara Cypress	6	1 Gallon	\$ 20.00	3'	2.5'	Full sun to part shade	This sport found on Chamaecyparis pisifera 'Baby Blue' has darker blue foliage that looks icy. A cute little tree that has a different look than other dwarf conifers and will work well in contrast to other foliage tones. If you are looking for a dwarf pyramidal tree that is unusual, here it is.
<i>Chamaecyparis pisifera</i>	CEDAR RAPIDS	Hinoki Cypress	10	2.5 Gallon	\$ 35.00	30'	12-15'	Full sun to part shade	A versatile plant that offers year-round color and texture! Cedar Rapids® false cypress will give you a lush evergreen and privacy with a unique texture. This is a fast-growing feathery selection of false cypress with fresh-looking, lime-green foliage. It naturally grows as a dense pyramid and provides year-round coverage. Great as a handsome specimen or for screening or privacy hedging, Cedar Rapids® <i>Chamaecyparis pisifera</i> brings a touch of charm and winter interest to any landscape. Plus, it's deer-resistant, allowing you to enjoy its constant color worry-free.
<i>Chamaecyparis pisifera</i>	'Cumulus'	Sawara Cypress	6	1 Gallon	\$ 20.00	1.5'	1.5'	Full sun to part shade	Tufts of needle-like, juvenile foliage give this rounded, bluish green selection its airy character, even when mature. Reminiscent of puffy clouds, the delicate choice adds a reliable element of soft texture to tight garden spaces. <i>Chamaecyparis pisifera</i> 'Cumulus' stays small without pruning and its foliage is most dense when grown in full sun. Particularly useful for container, trough or rock gardens and other small sites. A fun choice for miniature topiary.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Chamaecyparis pisifera</i>	'Curly Tops'	Sawara Cypress	10	1 Gallon	\$ 20.00	6'	5'	Full sun to part shade	The distinctive curly tips and silvery blue foliage of <i>Chamaecyparis pisifera</i> ‘Curly Tops’ add both texture and color to the landscape. The uniquely twisted needles show off a gleaming silver side, and the dense, compact form works well wherever a more rounded version of <i>C.p.</i> ‘Boulevard’ is needed. Use it to line the drive or define a garden wall. Partial shade produces a richer blue.
<i>Chamaecyparis pisifera</i>	'Devon Cream'	Sawara Cypress	8	1 Gallon	\$ 25.00	6-10'	3'	Full sun	The silvery-blue foliage of this compact upright (to 10') cone is washed with cream in spring... a lovely accent or hedge.
<i>Chamaecyparis pisifera</i>	'Gekko'	Sawara Cypress	6	1 Gallon	\$ 20.00	7'	4'	Part shade	Very cheery new white growth has remarkable drought and heat tolerance once established. Adapts to various soil conditions. Does well in acidic, average, rich and well-drained soil. A good option if you're seeking something heat tolerant, pollution tolerant, verticillium wilt resistant and wind tolerant. Prefers part shade conditions.
<i>Chamaecyparis pisifera</i>	'Harvard Gold'	Harvard Gold Dwarf Sawara Cypress	4	2 Gallon	\$ 65.00	2-4'	2-4'	Full Sun to Partial Shade	Bright gold, soft looking foliage, mounding habit, use as specimen plant.
<i>Cryptomeria japonica</i>	'Kitayama'	Kitayama Japanese Cedar	6	2 Gallon	\$ 23.00	12-18'	6-10'	Full Sun	Dwarf, from Kyoto, Japan, green foliage all year, good winter hardiness, narrow, upright, pyramidal, can be used as specimen and in small gardens and patio gardens, or lining as a border.
<i>Juniperus conferta</i>	'Pacific Gold'	Pacific Gold Juniper	10	1 Gallon	\$ 20.00	1'	4'	Full sun	Juniper Golden Pacific™ is as beautiful as it is lush. This carpet-forming Juniper boasts bright yellow foliage in full sun. Looks great even in extreme heat or salty conditions. Excellent for use as a groundcover or cascading over walls. This plant would make an excellent addition to any garden.
<i>Juniperus horizontalis</i>	'Wiltonii'	Blue Rug Juniper	6	1 Gallon		0.25-.050'	6-8'	Full sun	Grow in average, medium moisture, well-drained soils in full sun. Adapts to a wide range of soils, but prefers a dryish, sandy soil. Tolerates hot, relatively dry growing conditions, somewhat poor soils and many city air pollutants. Intolerant of wet soils.
<i>Thuja occidentalis</i>	'DeGroot's Spire'	Arborvitae	6	1 Gallon	\$ 20.00	15'	4'	Full sun to part shade	Dwarf cultivar of the evergreen, conifer named American arborvitae or eastern arborvitae. Compact and slow-growing small tree or large shrub with a narrow conical habit. The leaves are flat, twisted sprays of scale-like rich green foliage and have a citrus or fruity fragrance. It is the perfect evergreen for small vertical spaces in the garden. Use as a specimen, accent, container, or patio planting. It serves well as a foundation planting or shrub border. This evergreen would add winter interest to a cottage or rock garden. Black Walnut tolerant. Displayed in UTK Rose Garden.
<i>Thuja occidentalis</i>	FULL SPEED A HEDGE 'Thin Man'	Thin Man Arborvitae	32	1 Quart	\$15 EACH/ 3 FOR \$42	12-15"	3-5"	Full sun	Native! Full Speed A Hedge® Thin Man® arborvitae is the super-skinny, fast-growing arborvitae! It's the perfect choice for screens and privacy hedges where ground space is at a premium. Despite its extremely narrow, columnar habit, it still has a fast growth rate so you can get the privacy you need quickly. Holds its winter color very well.
<i>Thuja occidentalis</i>	STING	Sting Arborvitae	3	1 Gallon	\$ 25.00	15-20'	1-1.5'	Full sun to partial sun	This takes skinny to the max with its sword-like sihouette. Use it to make an exclamation point in garden designs, or fit it into a very narrow bed. Certain to be iconic plant in well-designed landscapes everywhere, from Shire to Shreveport.
<i>Thuja (Platycladus) orientalis</i>	'Morgan'	Morgan Arborvitae	6	2 Gallon	\$ 35.00	4'	3'	Full sun	With very flat fans of lime green foliage, packed very tight on the squat pyramidal plant. In winter, the foliage turns a purple-bronze-orange color, adding interest, then in spring it goes back to the bright lime green color. No pruning is required to keep the shape
<i>Thuja plicata</i>	'Forever Goldy'	Arborvitae	6	2 Gallon	\$ 35.00	10-25'	3-12'	Full sun	With intense yellow foliage that stays bright all season and through the winter, this plant is truly forever gold. Being both heat and drought tolerant, it is highly resistant to burn. Fast growing but compact, it serves excellently as a low maintenance hedge or screen. Definitely an eye-catcher in the garden.
Shrubs									
<i>Abelia x grandiflora</i>	BRILLIANTINA	Abelia	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	3-5'	Full sun to part shade	Finally, an abelia that's bright, bold, beautiful - and well-behaved. Brilliantina® abelia has a neat, dense habit that's much less prone to wild "dog leg" shoots, so it needs less pruning both in production and the landscape. Its green, yellow, and orange foliage is also less likely to revert than other variegated cultivars of abelia. Dark red stems add a surprising amount of color and contrast, and white summer flowers bring fragrance and pollinators.
<i>Berberis thunbergii</i>	SUNJOY NEO	Barberry	32	PW Quart	\$15 EACH/ 3 FOR \$42	2.5'	2.5'	Full sun	Orange is happy. Orange is cheerful. And there's no orange-r barberry than Sunjoy Neo®. Tom Ranney of NCSU brings us this eye-catching, jaw-dropping new selection that is bright and colorful all season, positively electric in spring. Dense, semi-dwarf habit makes it an ideal selection for landscape or garden beds.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Bignonia capreolata</i>	DRESSED TO THRILL	Crossvine	32	PW Quart	\$15 EACH/ 3 FOR \$42	12-30'	6-9'	Full to part sun	Dressed To Thrill crossvine (<i>Bignonia capreolata</i>) is colorful, extremely floriferous, and amazingly adaptable! This selection of our North American native crossvine transforms fences, walls, and trellises into a wall of flowers, climbing structures by tendrils. Orange-red trumpet-shaped flowers with bright yellow eyes enliven landscapes from spring through summer and provide a welcome food source for hummingbirds. Native from Ohio down to Texas, this semi-evergreen vine is adaptable to most any soil and exhibits excellent heat and drought tolerance.
<i>Betula x plettkei</i>	'Golden Treasure'	CESKY GOLD	20	1 Gallon	\$ 25.00	2-4'	2-4'	Full to part sun	This shrubby dwarf birch offers season-long interest with tiny chartreuse-yellow leaves with scalloped edges that emerge in sunset hues of orange and red. Cesky Gold® dwarf birch is exceptionally hardy—cold tolerant to USDA zone 2. This durable shrub responds well to pruning; it can be shaped, sheared, hedged, used as a miniature patio tree, or left to its appealing natural habit. Its versatility makes it a great choice for many gardens and landscapes. Cesky Gold® was developed by Michal Andrusiv in the Czech Republic.
<i>Buxus microphylla</i> var. <i>japonica</i>	'Unraveled'	Weeping Boxwood	4	1 Gallon	\$ 20.00	2'	4'	Full sun to part shade	'Unraveled' is a beautiful dwarf weeping boxwood. 'Unraveled' is slow growing reaching 2 ft in height by 4 ft in width in 10 years. 'Unraveled' is excellent for bonsai, containers, small spaces in the garden, or fairy gardens.
<i>Buxus newgen</i>		FREEDOM Boxwood	5	2.5 Gallon	\$ 35.00	3.5'	3.5'	Full sun to part sun to shade	Beautiful, glossy green foliage adorns this relatively vigorous, rounded boxwood that is slightly taller than wide.More uniform making it an excellent choice for formal and residential landscapes. May bronze in winter. Deer resistant!
<i>Buxus newgen</i>		INDEPENDENCE Boxwood	4	2.5 Gallon	\$ 35.00	3'	3'	Full sun to partial sun to shade	A very deep green, medium-sized cultivar that holds excellent color throughout the winter. It has a rounded habit that is nearly as tall as wide. In new gardens and landscapes. Branching structure is very strong, allowing it to withstand most moderate to heavy snow loads. Deer resistant!
<i>Caryopteris x clandonensis</i>	'DCARBEYBAR'	BEYOND MIDNIGHT bluebeard	10	PW Gallon	\$ 25.00	2-2.5'	2-3'	Full sun	Selected for its very dark foliage and deep blue flowers, Beyond Midnight® caryopteris is a reliable and handsome addition to really any sunny spot in the landscape. It attracts bees, butterflies, and hummingbirds, making it an excellent choice for perennial beds and pollinator gardens. Its spiky blue flowers and deep foliage bring refreshing color to the late summer garden. This tough shrub is easy to grow, and once established, it's very drought tolerant.
<i>Caryopteris incana</i>		BEYOND PINK'D	6	PW Gallon	\$ 25.00	2-2.5'	2-2.5'	Full Sun	Large, glossy, spearmint-green foliage and spires of pure-pink flowers, stacked in neat layers along the stem. It is not quite as hardy as conventional caryopteris, its fast-growing, easy-blooming nature makes it perfect for containers and summer color options in cooler areas. Blooms summer throuh autumn.
<i>Callicarpa americana</i>		American Beautyberry	20	2.5 Gallon	\$ 35.00	5'	5'	Full sun to part shade	NATIVE! Attracts butterflies and songbirds, attractive purple fruit in fall.
<i>Callicarpa x</i>	PEARL GLAM	Beautyberry	32	PW Quart	\$15 EACH/ 3 FOR \$42	5'	3'	Full sun	Bold color from summer to autumn. Pearl Glam® callicarpa presents a whole new look for the genus! Developed by Dr. Tom Ranney at NCSU, this hybrid cultivar boasts dark purple foliage, white flowers, and bright purple-pink berries. Vigorous, upright plant offers a space-saving vertical habit and a unique look in the landscape or in containers. Ideal for cut flower growers.
<i>Chitalpa</i>	EL NINO	El Nino Desert Orchid	18	4" Pot	\$15 EACH/ 3 FOR \$42	5-8'	4-6'	Full sun to partial sun	Absolutely lovely flowers that somehow look both like orchids and snapdragons, but are way easier to care for than either of those plants. You'll get to enjoy these sweetly scented blooms starting in late spring or early summer, depending on where you live, and then sporadically throughout the summer.
<i>Clethra alnifolia</i>	SUGARTINA 'Crystalina'	Summersweet	32	PW Quart	\$15 EACH/ 3 FOR \$42	2.5-3'	2.5-3'	Full sun to partial sun	NATIVE! Dwarf habit and fragrant,attracts pollinators, pure white flowers in mid summer. It has dark glossy foliage turns a nice bright yellow in fall. Developed by Dr. Tom Ranney at NCSU, it holds its tight, dense shape without pruning. Ideal scale and features list for residential landscapes!
<i>Cornus sericea</i>	ARCTIC FIRE Red	Red Twig Dogwood	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-5'	3-5'	Full sun to partial sun	Compact red-twig dogwood. Mike Farrow brings us Arctic Fire® red-twig cornus (C. sericea, formerly known as C. stolonifera), a compact cultivar with beautiful red stems. It reaches a height of just 3-4', compared to the 8-10' of conventional types. Ideally scaled for residential landscapes. Bring the outdoors in and use Arctic Fire® dogwood as a cut stem for holiday arrangements or for season-long color indoors.
<i>Deutzia</i>	YUKI KABUKI	Deutzia	10	PW Gallon	\$ 25.00	2.5-4'	2.5-4'	Full sun to part sun	Deep pink flowers in spring, mounded habit, glossy foliage turns yellow, red, and purple in fall, attracts pollinators, deer resistant, drought tolerant.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Fothergilla x intermedia</i>	LEGEND OF THE SMALL	Bottlebrush	25	PW Gallon	\$ 25.00	2-2.5'	2-4'	Full sun to part sun	Native! A true, small-leaf, small-stature <i>Fothergilla x intermedia</i> from Tom Ranney and his team at NCSU. After trialing about a dozen of his selections, this was the clear winner in terms of vigor, flower power, and fall color. It produces an abundance of bottle brush-like white flowers, has a well-branched mounded habit, and small bluish-green leaves that turn an attractive blend of yellow, orange, and red in autumn. Deer resistant, fragrant, fall interest, heat tolerant, attracts pollinators.
<i>Hibiscus x</i>	PARAPLU PINK INK	Rose of Sharon	32	PW Quart	\$15 EACH/ 3 FOR \$42	5-8'	4-5'	Full sun	This hybrid rose of Sharon spends summers bedecked with very large, very showy white and pink flowers. The star-like pink eye at the center of each bloom makes for a dazzling effect. Even though each individual flower lasts only one sweet summer day, the plant makes lots of buds for long-lasting color you can enjoy for months every season. Deep green foliage and an upright-yet-graceful habit make this rose of Sharon suitable for specimen plantings, flower gardens, even a showy hedge.
<i>Hydrangea arborescens</i>	INCREDIBALL Blush	Smooth Hydrangea	32	PW Quart	\$15 EACH/ 3 FOR \$42	4-5'	4-5'	Full sun to part sun	It's the next big thing in hydrangeas! Incrediball® Blush hydrangea is everything you love about the original Incrediball® hydrangea, but in pink! Extra large blooms are a very unique and appealing shade of silvery-pink and are held up on strong, sturdy stems. Continues to create fresh flowers through autumn for a very long lasting display.
<i>Hydrangea arborescens</i>	INCREDIBALL STORM PROOF	Smooth Hydrangea	32	PW Quart	\$15 EACH/ 3 FOR \$42	3.5-4'	3-4'	Full sun to part sun	NEW! As the name suggests, Incrediball Storm Proof smooth hydrangea (<i>Hydrangea arborescens</i>) tackles the most common complaint people have with the genus: while other smooth hydrangeas flop, this incredibly stout and sturdy stemmed beauty holds its blooms upright during—and even after—heavy summer downpours. Though its blooms aren’t quite as gigantic as the original Incrediball®, they are so numerous and large in proportion to this compact variety that it absolutely lives up to the expectations associated with this now household name. It's a robust, vigorous, heavy bloomer with a rounder, denser habit than other smooth hydrangeas.
<i>Hydrangea arborescens</i>	INVINCIBELLE MINI MAUVETTE	Smooth Hydrangea	4	PW Gallon	\$ 25.00	2.5-3'	2.5-3'	Full sun to part sun	Smooth hydrangeas are beloved for their big, reliable, blooms. But color has never been their strong suit - until now. Invincibelle Mini Mauvette® hydrangea brings a never-before-seen color to the species, with large mophead flowers in a deep mauve-violet. Blooms are held on very strong stems and appear early summer through fall. Dwarf habit gives this native plant amazing versatility in the landscape and the garden.
<i>Hydrangea arborescens</i>	INVINCIBELLE SPIRIT II	Smooth Hydrangea	32	PW Quart	\$15 EACH/ 3 FOR \$42	3.5-4'	3.5-4'	Full to part sun	A better pink 'Annabelle' - type hydrangea! Meet Invincibelle® Spirit II hydrangea - an improved version of Invincibelle® Spirit, the original pink 'Annabelle' hydrangea. It delivers darker foliage, stiffer stems, and larger flowers of a deeper, truer pink. The blooms age to an attractive green instead of the bisque color of the original. This hydrangea grows from Manitoba to Mobile, blooming every year from mid-summer to frost.
<i>Hydrangea arborescens subsp. radiata</i>	INVINCIBELLE LACE	Smooth Hydrangea	32	PW Quart	\$15 EACH/ 3 FOR \$42	4-5'	4-5'	Full to part sun	Some people adore lacecap flowers for their delicate beauty, while others appreciate the pollen for butterflies and bees. This premiere plant, the first ever smooth hydrangea with plum-purple lacy florets, accomplishes both, with strong, wiry stems of a dark ruby hue, that sway gracefully with the wind. Imagine big drifts, flowing through a Piet Oudolf-style garden, and come winter, frosted diamonds and songbirds adorning tawny crowns.
<i>Hydrangea macrophylla</i>	'Lady in Red'	Bigleaf Hydrangea	4	3 Gallon	\$ 40.00	3-5'	3-5'	Partial shade	Pink and red flowers bloom in early summer and attracts bees, excellent addition to a pollinator garden. Grows well with mostly sun - mostly shade and regular water. Does well in average, rich and well-drained soil.
<i>Hydrangea macrophylla</i>	'Variesii Variegata'	Bigleaf Variegated Hydrangea	8	1 Gallon	\$ 28.00	4-5'	4-5'	Partial shade	forming a marginal ring). It is a deciduous shrub with a rounded habit which typically grows 3-4' tall. Features clusters of pink or blue florets in large, flattened corymbs (4-6" wide) which bloom in June for up to 2 months. Large, serrate, obovate to elliptic, lustrous, medium green foliage with nicely variegated white edges.
<i>Hydrangea paniculata</i>	'Fire Light'	Panicle Hydrangea	10	3 Gallon	\$ 35.00	6-8'	6-8'	Full sun to part sun	'Fire Light®' is an exceptionally hardy <i>Hydrangea paniculata</i> that blooms reliably even in cold climates. It begins its flower show in midsummer with abundant pure white blooms that gradually turn deep reddish pink, exhibiting the full spectrum of color until fall. The strong stems support these large, 12–16" flower heads without flopping. It's truly beautiful in a border or foundation planting, becoming a well-branched shrub reaching 6-8' tall. Give this easy-care hydrangea full sun to partial shade and average garden soil. A Proven Winners®/Color Choice® variety.
<i>Hydrangea paniculata</i>	LITTLE LIME PUNCH	Panicle Hydrangea	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-5'	3-5'	Full sun to part sun	It's a special day when you discover a plant that's as unique and beautiful as this one. Similar to Little Lime® hydrangea with its useful, compact stature and emerging lime-green blooms, but it differs as the flowers age to pink. New blooms emerge to give you a festive mix of pink, green, white, and Hawaiian Punch-red blooms all on the same plant. It's hard to describe, but the plants just make you feel happy. Space saving, vibrant blooms, hardy.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Hydrangea paniculata</i>	'Limelight'	Panicle Hydrangea	10	PW 3 Gallon	\$32	6-8'	6-8'	Full to part sun	Award-winning variety with distinctive lime-green blooms. Our 'Limelight' hydrangea has become a garden classic, representing the best of the genus across North America. Refreshing green blooms in mid-summer transform to pink, red, and burgundy in autumn. The blooms are well distributed and held up on very strong stems. Multiple awards, including the Missouri Botanical Garden Plant of Merit; Pennsylvania Horticultural Society Gold Medal, American Society of Cut Flower Growers Cut Flower of the Year 2007, Royal Horticultural Society Award of Garden Merit.
<i>Hydrangea quercifolia</i>	'Ruby Slippers'	Oakleaf Hydrangea	4	1 Gallon	\$ 25.00	3-4'	3-4'	Full to part sun	NATIVE! Lovely 'Ruby Slippers' hydrangea has white summer flowers that turn pale pink, then deep to rose, and are held upright above the foliage. Flowers may reach 9" in length. The dark green foliage turns mahogany-red in fall. The compact habit and large upright inflorescences make it well-suited to residential gardens. Developed by the US National Arboretum from a cross of 'Snow Queen' and 'Pee Wee'.
<i>Hydrangea quercifolia</i>	'Ruby Slippers'	Oakleaf Hydrangea	10	3 Gallon	\$ 35.00	3-4'	3-4'	Full to part sun	
<i>Hydrangea quercifolia</i>	SNOW QUEEN	Oakleaf Hydrangea	3	1 Gallon	\$ 25.00	4-6'	6-8'	Full sun to part shade	Distinctive, deeply lobed, somewhat coarse, oak-like, deep green leaves (to 8" long) turn attractive shades of bronze, maroon or purple in autumn. Mature stems exfoliate to reveal a rich brown inner bark which is attractive in winter. This cultivar is very similar to the species, except the flower panicles herein are showier (i.e., larger and more numerous sterile flowers) and the flower stems tend to be more rigid and thus more apt to remain erect even after soaking rains.
<i>Hydrangea quercifolia</i>	SNOW QUEEN	Oakleaf Hydrangea	6	3 Gallon	\$ 40.00	4-6'	6-8'	Full - part shade	
<i>Hydrangea serrata</i>	TUFF STUFF AH-HA	Mountain Hydrangea	32	PW Quart	\$15 EACH/ 3 FOR \$42	2-3'	2-3'	Full to partial sun	A truly outstanding <i>Hydrangea serrata</i> . Standing out notably in field and container trials for its outstanding reblooming ability, Tuff Stuff Ah-Ha® mountain hydrangea, the newest member of the series, has massive dinner plate sized blooms. Sterile florets are doubled and waterlily-like, taking on outstanding pink or blue coloration depending on soil conditions. Like all <i>H. serrata</i> , it has outstanding bud hardiness. Prepare to be impressed!
<i>Hydrangea x</i>	FAIRYTRAIL Green	Cascade Hydrangea	5	PW Gallon	\$ 25.00	4'	4-5'	Part sun	Graceful habit of arching, cascading branches with a flower bud at every node, the blooms are a cool, refreshing lime green. A beautiful choice for landscapes, gardens, and decorative containers - even hanging baskets. Extremely floriferous, unique habit, versatile. Hardiness on the Cascade Hydrangeas is a bit of an unusual situation. The plants themselves are actually quite hardy - as hardy as <i>H. macrophylla</i> , perhaps a bit more. Protecting them with old blankets on those spring nights and mornings when unusually cold weather threatens is also a viable approach.
<i>Hydrangea x</i>	FAIRYTRAIL White	Cascade Hydrangea	5	PW Gallon	\$ 25.00	4'	4-5'	Part sun	A mophead version of the world-famous Fairytrail Bride hydrangea. It has irresistible container presentation and impulse appeal, and makes a beautiful choice for landscapes, gardens, and decorative containers - even hanging baskets. Protecting them with old blankets on those spring nights and mornings when unusually cold weather threatens is also a viable approach.
<i>Ilex glabra</i>	STRONGBOX	Inkberry Holly	8	PW Gallon	\$ 25.00	2-3'	2-3'	Full to part sun	NATIVE! Native alternative to boxwood. With its squat, rounded habit, handsome evergreen foliage, and full, dense branching, Strongbox® inkberry is a welcome alternative to boxwood. Lush, deep green, and disease resistant, this plant offers huge potential for the landscape. Stays green and well-branched right to the ground. Native to North America and highly adaptable.
<i>Ilex verticillata</i>	BERRY POPPINS	Winterberry Holly	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	3-4'	Full to part sun	Native! Winterberry is unmatched for winter interest, but many homeowners don't have room for a traditional variety. Enter Berry Poppins®: an excellent, heavy fruiting dwarf cultivar. Ideal for those who want bright winter color and fruit for cutting but don't have room for a conventional <i>I. verticillata</i> . It is heavier fruiting than 'Red Sprite'. For berries on this female selection, a male pollinator is required; use Mr. Poppins® winterberry holly. Fruit is not edible.
<i>Ilex verticillata</i>	BERRY HEAVY	Winterberry Holly	32	PW Quart	\$15 EACH/ 3 FOR \$42	6-8'	6-8'	Full to partial sun	NATIVE! Berry Heavy® winterberry holly produces copious amounts of bright red berries to be enjoyed in fall and winter. Brighten up the winter landscape with a mass planting! The berries can also be cut for use in floral arrangements. For berries on this female selection, a male pollinator is required; use Mr. Poppins® winterberry holly. Fruit is not edible. Deer resistant.
<i>Ilex verticillata</i>	MR. POPPINS	Winterberry Holly	16	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	3-4'	Full to partial sun	NATIVE! Mr. Poppins® is a compact male selection, the ideal pollinator for Berry Poppins® and other early winterberry holly. Space-saving dwarf variety allows it to be tucked away in the landscape. Note: this male cultivar will not bear fruit but is essential for pollinating female varieties.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Ilex x meserveae</i>	CASTLE SPIRE	Blue Holly	32	PW Quart	\$15 EACH/ 3 FOR \$42	8-10'	3-5'	Full to part sun	The Castle™ series brings compact, pyramidal forms to the world of blue holly. Their dark glossy leaves, superior vigor and branching make them an improvement over other older varieties. Narrow form makes them great for hedges, foundation plantings, or even as a dramatic specimen. The lustrous green foliage provides season long interest. Castle Spire® is a female variety with a strongly narrow, pyramidal habit.
<i>Itea virginica</i>	FIZZY MIZZY	Sweetspire	9	1 Gallon	\$ 25.00	2-3'	2-3'	Full Sun, Part Sun, Shade	An unconventional <i>Itea</i> noted for its numerous, heavenward-shooting white, early summer flower spikes. A neat and tidy habit, in a container and in the garden, Fizzy Mizzy® sweetspire has thick, dark green leaves that contrast nicely with the lightly fragrant, pure white blooms. These flowers are enjoyed by people and pollinators alike. This native shrub’s compact habit and shade tolerance make it the perfect little shrub to use around the home and in wildlife and woodland gardens.
<i>Kolwitzia</i>	JOLENE JOLENE	Beauty Bush	8	1 Gallon	\$ 25.00	3-6'	4-6'	Full to part sun	A beautybush beyond compare, Jolene Jolene puts on the flower show you expect from a kolkwitzia, but at half the conventional size, so you can actually fit it into a residential landscape, or even a garden. Star-shaped pink flowers with a bright yellow throat emerge at every node to light up this tough, easy-to-grow shrub. Highly adaptable and care-free, Jolene Jolene beautybush makes an excellent flowering hedge, foundation plant, and all-purpose landscape plant.
<i>Leucothoe fontanesiana</i>	PAISLEY PUP	Doghobble	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	4-5'	Part sun	Handsome broadleaf evergreen with foliage that blazes an array of pink, green, cream, white, bronze, and yellow hues. Racemes of fragrant white flowers dangle elegantly from the slender, arching stems, enticing pollinators. Its versatile low habit and outstanding deer resistance, as well as shade tolerance. Toxic to dogs, cats, and horses.
<i>Osmanthus heterophyllus</i>	'Kaori Hime' Party Princess	Kaori Holly Olive	2	1 Gallon	\$ 20.00	4'(10yr)	4'(10yr)	Full sun to partial sun	An extremely floriferous form that condenses hundreds of small white fragrant flowers along the stems from October to December. Kaori Hime is great for foundation plantings, rock gardens, hedges, and specimens. Great cold hardiness for a broad-leaved evergreen. Drought adapted when established otherwise it tolerates regular irrigation which will eventually speed growth.
<i>Rhododendron</i>	'Volunteer Orange'	Native Azalea	20	1 Gallon				Part sun to part shade	SPECIALLY BRED BY VIVIAN ABNEY OF EAST FOR NURSERY FOR UT GARDENS
<i>Rhododendron</i>	'Sue's Tennessee Treasure'	Native Azalea	20	1 Gallon				Part sun to part shade	SPECIALLY BRED BY VIVIAN ABNEY OF EAST FOR NURSERY FOR UT GARDENS HONORING DR. SUE HAMILTON
<i>Rhododendron</i> x	BLACK HAT	Black Hat Rhododendron	32	PW Quart	\$15 EACH/ 3 FOR \$42	3'	3'	Part sun	Developed by Dr. Tom Ranney at NCSU, Black Hat® rhododendron is a small-leaved, compact 'PJM' type. What sets it apart, however, is that it is a triploid selection, making the rose-purple early spring flowers far longer lasting than conventional selections. Thick, dark, evergreen foliage takes on dramatic purple-black tones in cool weather. Grow it and see the difference!
<i>Rhododendron</i> x	SWEET REWARD Pink	Azalea, Deciduous	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-6'	3-6'	Full to part sun	Sweet Reward azaleas are far from your typical selection: not only are they hardy, but these native azaleas light up spring with large, vivid globes of pink flowers and incredible fragrance. You – and everyone else in the vicinity – will love the rich, spicy-floral fragrance of Sweet Reward Pink azalea. It all makes for a wonderful spring show in the garden. Developed by NCSU’s Dr. Jim Ballington from North American native species.
<i>Rhododendron</i> x	PERFECTO MUNDO EPIC PINK	Reblooming Azalea	3	PW Gallon	\$ 25.00	3-4'	3-5'	Full to part sun	The size and quantity of flowers are an ode to the classic appeal of azaleas: rich bubble gum to hot pink single blooms drench the plant with color in spring and again in fall. Like its sister Perfecto Mundo Epic Coral azalea, you'll enjoy huge blooms that look fabulous in the container and in the landscape.
<i>Rhododendron</i> x	PERFECTO MUNDO EPIC CORAL	Reblooming Azalea	6	PW Gallon	\$ 25.00	3-4'	3-5'	Full to part sun	All of the Perfecto Mundo series boasts epic performance, but the new Epic sub-series offers flowers of truly epic proportions as well. Lacy petaloid stamens adorn the center of each gigantic pink-orange flower for a semi double effect.
<i>Rosa</i>	AT LAST	At Last Landscape Rose	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	3-4'	Full sun	With the romance of a fragrant, fully-petaled tea rose with the no-nonsense practicality of a disease-resistant landscape rose. No spraying is required to enjoy a non-stop display of large, sweetly perfumed sunset-orange blossoms from late spring through frost. Handsome, glossy foliage and a vigorous, rounded habit makes it ideal for use in the landscape or the flower garden.
<i>Rosa</i>	1.5-2'	Double Pink Landscape Rose	32	PW Quart	\$15 EACH/ 3 FOR \$42	1.5-2'	1.5-2'	Full sun	Excellent disease resistance and abundant, continuous blooms set Oso Easy® Double Pink rose apart from the crowd. Ten or more pink double flowers are produced per stem, creating a mass of cheerful summer color. Low mounding habit makes it a useful groundcover rose. Winner of the American Rose Society 2021 Award of Excellence, two 2021 A.R.T.S. Local Artist Awards, and 2021 American Rose Center Best Groundcover Rose.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Rosa</i>	FLAVORETTE Honey-Apricot	Honey-Apricot Edible Rose	32	PW Quart	\$15 EACH/ 3 FOR \$42	5-8'	3-4'	Full sun	Full flowers, vigorous growth, sweet, fruity flavored petals that can be used in sweets, salads, and infusions. Use in herb gardens, rose gardens, mixed perennial gardens, cottage gardens, and in mixed borders.
<i>Rosa</i>	FLAVORETTE PEAR'D	PEAR'D Edible Rose	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	3'	Full sun	As lovely in the garden as it is in a vase or on the table! Flavorette Pear'd rose creates delicate pink flowers that have a distinctive light pear flavor, and a lush, soft texture that's lovely to eat. The semi-double flowers are borne on a sturdy, healthy plant that's easy to grow. We know that edible roses is a new market in North America, but thanks to the dedication and vision of the Serbian breeders and the work our team has put into trialing for production and landscape performance, we're confident that the Flavorette series will appeal to rose-lovers, herb gardeners, and foodies alike. Use them in sweets, salads, and infusions for a uniquely flavorful touch to summer meals and treats.
<i>Rosa</i>	OSO EASY ITALIAN ICE	Italian Ice Landscape Rose	5	PW Gallon	\$ 25.00	1.5-2.5'	1.5-2.5'	Full sun	Similar to 'Peace' in its coloration, the orange buds of Oso Easy Italian Ice® rose open to soft yellow flowers with pink blushed margins. The soft flower color is set off nicely by its dark green, glossy foliage. Flowers are semi-doubled, with 24-30 petals per bloom. Self cleaning and very disease resistant.
<i>Rosa</i>	RISE UP EMBERAYS	RISE UP EMBERAYS Climbing Rose	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-5'	2-3'	Full sun	Reignite a passion for roses with the blazing color of this climbing rose. Big, luscious orange blooms accentuated with a bright yellow eye, will liven up the landscape all summer long, whether grown on its own or trained up a trellis, column, or wall. Super-clean, glossy, dark green foliage looks even more outstanding contrasting with exceptional brightness of the flowers. A top-performing rose in trials.
<i>Rubus</i>	TASTE OF HEAVEN 'Ponca'	Thornless Blackberry	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-5'	2-3'	Full sun	Taste of Heaven blackberry (Rubus 'Ponca') is the sweetest, most flavorful blackberry on the market - and now you can grow it at home. And we know because we tasted literally hundreds of different blackberry varieties before deciding this would be the one to make it on to further testing. Taste of Heaven is a vigorous, thornless blackberry that produces large, luscious fruits over several weeks in summer. It's a florican variety, fruiting only on second-year canes, and does not strictly require trellising or support, though in the garden, it is easier to care for and harvest with something in place.
<i>Sambucus canadensis</i>		American Elderberry				5-12'	12-15'	Full to part sun	American elderberry tolerates a wide variety of wet to dry soils but prefers rich, moist, slightly acidic soil in sun to partial shade. In summer, small white flowers are borne in dense clusters. Flowers are followed by a purple-black drupe that is produced in drooping clusters from late summer to fall.
<i>Sambucus racemosa</i>	LEMONY LACE	Lemony Lace Elderberry	32	PW Quart	\$15 EACH/ 3 FOR \$42	4-7'	4-7'	Full sun to partial shade	NATIVE! Lemony Lace® elderberry is a super-showy cutleaf selection of our native Sambucus racemosa. Bright golden foliage is highly dissected and emerges with a colorful red hue. The foliage is more deeply cut than 'Sutherland Gold' or Black Lace®, resulting in a dense, irregular mound with extremely fine texture. White flowers appear in very early spring, before the leaves emerge, and produce red fruit in fall. Will tolerate full sun in northern climates but prefers light shade in warmer areas.
<i>Spirea japonica</i>	DOUBLE PLAY CANDY CORN	Spirea	32	PW Quart	\$15 EACH/ 3 FOR \$42	1.5-2.5'	1.5-2.5'	Full sun to partial shade	Crazy colorful spirea! You have to see Double Play® Candy Corn® spirea to believe it! Candy apple red foliage starts the show in spring. As the season progresses, the foliage transforms to pineapple yellow. Dark purple blooms appear in late spring, making this the most eye-poppingly colorful Double Play® spirea yet. This sterile, triploid spirea was developed by Tom Ranney of NCSU.
<i>Spirea virginiana</i>		Virginia Meadowsweet				3-7'		Full to part sun	Native to Tennessee, endemic to southen Appalachians. The Virginia spiraea is found in the Appalachian Plateaus or the southern Blue Ridge Mountains in Alabama, Ohio, West Virginia, Virginia, Tennessee, North Carolina, Kentucky, and Georgia. Prefers wetland areas, favoring moist, well-drained soils. Blooms from late spring to early summer of white clusters.
<i>Viburnum carlesii</i>	SPICE BABY	Koreanspice Viburnum	32	PW Quart	\$15 EACH/ 3 FOR \$42	3.5-5'	3.5-5'	Full sun to partial shade	Compact and fragrant. With its fragrant spring blooms and attractive habit, compact Spice Baby™ Koreanspice viburnum brings greater versatility to this always-popular genus. Stronger growing than other compact varieties, it's an ideal way to bring the intoxicating fragrance of Koreanspice viburnum to small spaces.
<i>Vitex</i>	ROCK STEADY	Vitex	20	1 Gallon	\$ 25.00	4-12'	4-5'	Full sun	Rock Steady vitex is incredibly long-blooming - 6-16 weeks longer than six other popular varieties of vitex, according to our trials. Sprays of beautiful lavender flowers grace the plant from late spring through fall, attracting pollinators and fending off heat, drought, and deer like it was born to do it. It is, of course, heat tolerant, but also surprisingly hardy.
Trees									
<i>Carpinus caroliniana</i>		American Hornbeam	4	2.5 Gallon	\$ 35.00	20-30'	20-30'	Full sun to shade.	NATIVE! New leaves emerge reddish-purple, changing to dark green, then turn yellow to orange-red in the fall, offering a kaleidoscope of color throughout the year. Even in winter, the tree's fluted blue-gray bark with long, sinewy ridges make it a special addition to the landscape. Prefers partial shade but will grow in full sun.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Carpinus x</i>	'Skylark'	Fastigate Hornbeam	8	3 Gallon	\$ 45.00	25-35'	10-15'	Full sun to shade	It has a relatively narrow upright form, a compact habit, and deep green serrated foliage. With age, the bark becomes more attractive with a fluted character. Skylark is superior to the common <i>C. betulus</i> 'Fastigiata' because it maintains its columnar form, whereas; 'Fastigiata' becomes wide spreading with age - not at all columnar in outline. Skylark has no apparent disease or major insect pest issues and is also more widely adapted in cold winter climates. Mycorrhizal roots help it remain attractive and growing well during dry summers with little or no irrigation. Hybridized by Dr. Harold Pellett, former professor at University of Minnesota, a cross between <i>Carpinus caroliniana</i> x <i>Carpinus betulus</i> 'Fastigiata'.
<i>Calycanthus floridus</i>		Carolina Allspice	8	1 Gallon	\$ 18.00	6-10'	6-12'	Full sun to part shade	Native! Easily grown in average, medium, well-drained soil in full sun to part shade. Grows somewhat taller in shade than in sun. Tolerant of a wide range of soils, including clay, but prefers rich loams. Prune immediately after flowering to shape or maintain compactness. Features very fragrant, brown to reddish-brown flowers (2" across) which bloom at the ends of short branchlets in May. Flowers give way to brownish, urn-shaped fruits (seed capsules) which mature in fall and persist throughout the winter. Lustrous, dark green (pale beneath), ovate to elliptic leaves to 6" long turn golden yellow in fall. Leaves are aromatic when bruised.
<i>Cladrastis kentuckea</i>		American Yellowwood	4	7 Gallon	\$ 75.00	30-50'	40-55'	Full sun	NATIVE! With smooth bark, large hanging clusters of fragrant white flowers, and clear yellow fall color. Choose a yellowwood tree for excellent shade in a small to medium sized landscape. Note that the branches of the yellowwood are highly susceptible to ice storm damage.
<i>Cercidiphyllum japonicum</i>	'Moroika Weeping'	Weeping Katsura	5	2.5 Gallon	\$55	25-30'	15'-30'	Full sun	A rare weeping form that differs from <i>C. j.</i> 'Pendula' in that it has larger, puckered leaves and an informal habit. Spring leaves emerge with a reddish purple cast that softens to blue-green in summer. Great fall color includes bright yellow with hints of orange and apricot. The tree grows vertically when young and matures to a more strongly weeping form with age. Best color and growth in full sun. From Brookside Gardens, Wheaton, Maryland.
<i>Cornus kousa</i>	'Greensleeves'	Kousa Dogwood	8	2.5 Gallon	\$45	15-20'	15-20'	Full sun to part shade	Best grown in humusy, organically rich, medium moisture, acidic to neutral, well-drained soils in full sun to part shade. Performs well in sandy loams. Appreciates regular moisture during hot summers. White flowers glow against the glossy, deep green leaves of this small tree in early summer. Fall brings an abundant crop of large red fruit that is a feast for the eyes and the birds, and the leaves turn brilliant shades of purple and red. Patchy, exfoliating bark adds year-round interest. Exhibiting the disease resistance characteristic of the species, 'Greensleeves' is a low maintenance charmer ideal for a site with some afternoon shade.
<i>Cornus kousa</i>	'Snow Tower'	Kousa Dogwood	5	2.5 Gallon	\$55	10-15'	4-8'	Full sun to part shade	Best grown in humusy, organically rich, medium moisture, acidic to neutral, well-drained soils in full sun to part shade. Performs well in sandy loams. Appreciates regular moisture during hot summers. 'Snow Tower' is an upright columnar cultivar that typically matures to 10-15' (less frequently to 20') tall with a narrow spread to 4-8' wide. Flowers (bracts to 7" wide) are white. Abundant flowering occurs in June (slightly later than flowering on most cultivars of this species). Deep green foliage turns attractive shades of red in autumn..
<i>Cornus kousa chinensis</i>	'Blue Ray'	Kousa Dogwood	1	7 Gallon	\$ 85.00	15-20'	15-20'	Full sun to part shade	Features large blue-green foliage which lies flat against its vase-shaped silhouette. Foliage is attractive all season serving as a backdrop for creamy white spring flowers. Grows 15 to 20 feet tall and wide. Excellent landscape specimen.
<i>Ginkgo b.</i>	'Princeton Sentry'	Ginko	4	2.5 Gallon	\$ 55.00	40-50'	20-25'	Full sun	A fruitless male Ginkgo cultivar that is pest-free. Chartreuse, fan-shaped leaves that flutter in the breeze turn a lovely flaxen yellow in the fall. A handsome landscape specimen with a narrow columnar form. Deciduous.
<i>Magnolia grandiflora</i>	'DD Blanchard'	DD Blanchard Magnolia	4	3 Gallon	\$ 55.00	50-70'	20-35'	Full sun	D.D. Blanchard is one of the largest varieties, producing dark green, large leaves with a rusty brown underside. It is capable of maintain a straight, central trunk, which allows it to be grown full to the ground or be pruned into tree form with a visible trunk. Flowers bloom in late spring, with sparse but continued flowering throughout the summer. The fragrant blossoms are large (can be 8" in width) and are cup-shaped in appearance.
<i>Magnolia virginiana</i>	'Northern Belle'	Sweetbay Magnolia	15	1 Gallon	\$30	25-35'	15'	Full to part	Native! Blooms late spring through summer, sweet, lemony fragrance, fast growing, upright, narrow, oval habit/form, evergreen as far north as Augusta, Maine.
<i>Metasequoia glyptostroboides</i>		Dawn Redwood	2	1 Gallon	\$ 35.00	70-100'	15-25'	Full sun	Fast growing, great street tree, long lived, can tolerate wet and dry conditions once established, extremely hardy, pollution tolerant, deer tolerant, attractive feathery leaves.
<i>Parrotia persica</i>	'Golden BellTower'	Columnar Ironwood	1	7 Gallon	\$ 75.00	30'	10'	Full sun	Great street tree, good history and performance record, reliably upright and columnar, moderate to fast grower, gold to apricot fall color.
<i>Taxodium distichum</i>	'Lindsey's Skyward'	Bald Cypress	2	7 Gallon	\$ 75.00	20-25'	5-10'	Full sun to part shade	NATIVE! Naturally dwarf, moderate growth, non-aggressive root system with no surface roots or knees, feathery foliage, tough and hardy tree, versatile in landscape, good for compact lots, makes a good anchor in mixed plantings, good as specimen tree and when used with other conifers for contrast.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Quercus x warei</i> 'Nadler'	Kindered Spirit'	Ware's Oak, Hybrid Oak	1	3 Gallon	\$ 55.00	30'	6'	Full sun	It has a columnar growth habit and it was bread to be powdery mildew resistant. Even though it is a hybrid it still produces acorns that provide a food source for small mammals. Mass plant them to form a tall hedge or use as a specimen. Once established it is drought tolerant and it does tolerate clay soils and salt well.
Perennials									
<i>Achillea millifolium</i>	'Oertel's Rose'	Yarrow	12	1 Gallon	\$ 14.00	24-30"	24-48"	Full sun	Rose-pink flowers that age to white from early to late summer. Excellent cut flower, heat tolerant, deer and rabbit resistant, evergreen, Attracts bees and butterflies.
<i>Achillea millifolium</i>	'Paprika'	Yarrow	12	1 Gallon	\$ 14.00	24"	30"	Full sun	Large bright red clusters of flowers fade to light pink and yellow. Fragrant blooms from early to late summer. Heat, humidity, deer and rabbit tolerant. Use in borders, cottage gardens, rock gardens, and mixed perennial gardens and as cut flower. Attracts bees and butterflies.
<i>Agastache foeniculum</i>		Agastache	45	1 Quart	\$ 10.00	2-3'	20"	Full sun	Oodles of soft lavender-blue flowers are held over large deep-green, minty licorice-scented foliage. Unique bottle-brush like flowers of Agastache are very attractive. Leaves feature silver undersides. Exceptional performance in the sun-drenched garden. Agastache Blue Fortune is an outstanding plant selection for the sunny border. Low maintenance, tolerates heat and drought once established. Butterflies and hummingbirds love to sample the nectar rich blooms. A nice feature in an herb garden or mixed border. Blue Fortune resulted from a cross between A. rugosa and A. foeniculum. 2004 Great Plant Picks award winner.
<i>Allium cernum</i>		Nodding Onion	14	1 Gallon	\$ 15.00				
<i>Amsonia tabemaemontana</i>	'Starstruck'	Blue Star	6	3 Gallon	\$ 30.00	12-15"	20"	Full Sun	Native! Captivating foliage emerges smoky olive-green. Dazzling, sky-blue, star-shaped flower clusters in late spring blanket the foliage mounds. After flowering, leaves lighten to brighter green with prominent chartreuse midribs and then golden in the fall. Heat/humidity tolerant, and deer resistant; Amsonia Starstruck is an excellent choice for gardeners looking for low maintenance perennials.
<i>Anemone hupehensis</i>	'Fantasy Pocahontas'	Windflower	5	1 Quart	\$ 10.00	18-24"	24"	Full sun to part shade	The frilly pink, double flowers of this compact charmer mingle with interesting, rounded, silky buds. From the Fantasy™ Series, Anemone Pocahontas is long-blooming and with its robust, vigorous habit provides late summer color. Cottony seed heads form after flowers fade to extend its appeal into fall. Masses of flowers sway on slender stems above the deep green foliage.
<i>Anemone hupehensis</i>	'Honorine Jorbet'	Windflower	12	1 Quart	\$ 12.00	3-4'	20"	Full sun to part shade	Dazzling white elegant flowers surround frilly yellow stamens with chartreuse centers. 2-3” flowers adorn tall waving stems above an attractive mound of rich dark green leaves. A. Honorine Jobert typically grows 3-4' tall - slightly more compact than others. Blooms late summer to mid-fall. Attracts butterflies, beneficial for pollinators, good cut flower, deer and rabbit resistant, wet site tolerant. Good in fall border and mixed perennial gardens.
<i>Anemone hupehensis var. japonica</i>	'Pamina'	Windflower	12	1 Quart	\$ 12.00	2-3'	2-3'	Full sun to part shade	One of the most compact Anemone, the elegant bright rose-pink blossoms of broad overlapping petals surround whorls of bright yellow stamens. This beauty will rival the fall-blooming colors of Asters and Mums. From late summer to fall, there is no other flower quite like Anemone in the border. Great for cut bouquets.
<i>Anemone hupehensis</i>	'Robustissima'	Windflower	14	1 Gallon	\$ 14.00	3-4'	20"	Full sun to part shade	Vigorous and Extremely Hardy. Soft pink, single cup-shaped flowers float above attractive, deep green foliage. The most adaptable of the Japanese Anemone. From late summer to fall, there is no flower quite like it in the border for providing late season color. The hardiest to zone 4 and the most tolerant of sun and drier conditions.
<i>Anemone hupehensis</i>	'September Charm'	Windflower	12	1 Quart	\$ 12.00	3-4'	2-3'	Full sun to part shade	Blooms August to October, showy silvery pink with rose shading flowers, low maintenance, use in perennial borders, cottage and woodland gardens, effective when massed, attractive with hostas and astilbes. Best grown in organically rich, humusy, evenly moist, well-drained soils in full sun to part shade. Soils must not be allowed to dry out. Plants are best sited in part shade locations with protection from wind. Foliage tends to burn in hot, dry, sunny summer conditions. Plants do not perform well in the deep South (south of USDA Zone 7). Avoid wet, poorly drained soils, particularly in winter. Plants appreciate a winter mulch in cold winter climates. Plants may be slow to establish, but will naturalize well by spreading rhizomes in optimum growing conditions. Deer tolerant.
<i>Anemone hupehensis</i>	'Whirlwind'	Windflower	14	1 Gallon	\$ 14.00	3'	20"	Full sun to part shade	Elegant, ruffled, semi-double white petals surround frilly yellow centers. 2” flowers adorn tall stems above an attractive mound of rich, dark green leaves. Whirlwind is one of the most stunning plants in the fall garden. It lives up to its name with petals that look as if they have been tousled by the breeze.
<i>Artemisia ludoviciana</i>	'Powis Castle'	Powis Castle Wormwood	12	1 Gallon	\$ 14.00	30"	36"	Full sun	This easily grown plant makes an attractive ground cover for borders, beds, rock gardens, xeriscapes, and urban locations. Its fern-like leaves add color and texture to a landscape to accentuate perennial flowers or ornamental grasses.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Asarum canadensis</i>		Wild Ginger	14	1 Gallon	\$ 15.00	0.5-1'	1-1.5'	Part to full shade	Easily grown in average, medium to wet, well-drained soil, in part shade to full shade. Prefers constantly moist, acidic soils in heavy shade. Spreads slowly by rhizomes to form an attractive ground cover for shade areas. Basically a stemless plant which features two downy, heart-shaped to kidney-shaped, handsomely veined, dark green, basal leaves (to 6" wide). Cup-shaped, purplish brown flowers (1" wide) appear in spring on short, ground-level stems arising from the crotch between the two basal leaves. Flowers are quite attractive on close inspection, but bloom singly on or near the ground and are usually hidden from view by the foliage.
<i>Asclepias angustifolia</i>		Arizona Milkweed	18	4"	\$ 8.00	24"	24"	Full sun	Native to Arizone. Blooms late summer into fall.
<i>Asclepias incarnata</i>		Swamp Milkweed	30	1 Quart	\$ 10.00	4-5'		Full sun	Rich, wet, very muddy to average garden moisture. One of the few ornamentals that thrives in mucky clay soils. Prefers neutral to slightly acidic soil but will tolerate heavy clay. With its showy flower clusters that attract butterflies and hummingbirds, swamp milkweed is underutilized in gardens. In moist soils or in a pond, it will thrive. The interesting seed pods look like other milkweeds. Swamp milkweed will inevitably have aphids. The insects are not a problem unless the plant looks sick; at that point an effective treatment is to spray the plant and aphids with soapy water. Another possible treatment is to support the plant part with your hand and blast it with high-pressure water. Good for wetland gardens and habitat.
<i>Asclepias incarnata</i>		Swamp Milkweed	10	1 Gallon	\$ 14.00			Full sun	
<i>Asclepias tuberosa</i>		Butterfly Weed	5	1 Gallon	\$ 18.00	2'	18"	Full sun	Native! Long-lasting, bright orange flowers and a low mounded profile make Butterfly Weed (<i>Asclepias tuberosa</i>) one of the most popular milkweeds. True to its name, Butterfly Weed attracts legions of butterflies and is an important host plant for Monarch and Queen butterflies. Unusual among milkweeds, its leaves are alternate and it lacks the typical milky sap. In an ideal location, a mature Butterfly Weed can become a very showy specimen, with multiple flowering stems spreading across a two foot high plant. This rugged species thrives in sunny locations, in dry sandy soil or well-drained loam. Mature plants have a deep tap root that extends down a foot or more. They can be transplanted if dug carefully, during dormancy.
<i>Asclepias verticillata</i>		Whorled Milkweed	10	1 Gallon	\$ 15.00	1-3'		Full sun	Native! The narrow, linear leaves are whorled along the stem. Small, greenish-white flowers occur in flat-topped clusters on the upper part of the stem.
<i>Brunnera macrophylla</i>	'Jack Frost'	Siberian Bugloss	12	1 Quart	\$ 20.00	12-15"	12-14"	Partial shade to full shade	2012 Perennial Plant Association's Plant of the Year. Prized for its large highly frosted and veined heart-shaped leaves. Brunnera Jack Frost produces a truly spectacular display in the shade, even more so when in bloom with its bright blue Forget-me-not flowers in spring. Will multiply politely. Blooms early spring to late spring. Deer and rabbit resistant.
<i>Calamintha nepeta</i>	'Monstroze White'	Calamint	14	1 Gallon	\$ 14.00	1-1.5'	1-1.5'	Full sun	Montrose White' was awarded Perennial of the Year by the Wisconsin Nursery Association in 2010. Easily grown in slightly acidic to slightly alkaline, dry to medium moisture, well-drained soils in full sun. Prefers evenly moist soils, but tolerates some drought. Tolerates light shade in the afternoon.
<i>Coreopsis grandiflora</i>	'Baby Sun'	Coreopsis	12	1 Gallon	\$ 14.00	1-1.5'	0.75-1'	Full sun	Compact lanceleaf coreopsis cultivar. Features solitary, yellow, daisy-like flowers (1-2" diameter) with yellow rays (lobed at the tips) and flat darker yellow center disks atop slender, erect stems rising 15-20" tall. Flowers typically bloom from late spring to late summer and sometimes well into fall, though bloom period can be much shorter if spent flowers are not regularly deadheaded.
<i>Coreopsis tripteris</i>	'Gold Standard'	Tall Coreopsis	12	1 Gallon	\$ 14.00	3-9'	2-8'	Full sun	Native! These yellow flowers resemble the flower Black-eyed Susan but in a mini version, and can be found in thickets and woodland edges. Pollinators love this plant, and birds relish the seeds. It spreads easily and is resistant to browsing by deer.
<i>Coreopsis verticillata</i>	'Zagreb'	Threadleaf Coreopsis	12	1 Quart	\$ 10.00	18"	14"	Full sun	Freely produced, golden-yellow flowers are a charming addition to your sunny garden. Blossoms of Coreopsis Zagreb appear on pure green, slender foliage and continuously bloom from early summer right into fall. The dainty, finely-cut foliage adds texture and an interesting contrast to surrounding perennials. They spread slowly but surely and can be used in a naturalized planting, on a sunny bank, or in a traditional border. Coreopsis is lovely paired with Echinacea.
<i>Dianthus gratianopolitanus</i>	'Firewitch'	Dianthus	12	1 Gallon	\$ 14.00	10-12"	12"	Full sun	2006 PPA Plant of the Year. Long flowering German Hybrid with ice-blue foliage forms a tidy mat that stays evergreen. Dianthus Firewitch has brilliant pink single flowers that have frilled petals combined with a pleasing clove scent. Groundcover, blooms mid-spring to mid-summer, attracts butterflies, good cut flower, deer resistant, evergreen, fragrant, long blooming, hot dry site tolerant.
<i>Echinacea purpurea</i>		Purple Coneflower	75	1 Quart	\$ 10.00	2-4'	1.5-2'	Full sun	Native! Purple coneflower is an herbaceous perennial in the Asteraceae (daisy) family that is native to the central and eastern United States. The Genus name is Greek for meaning 'spiny one' and the species name means reddish-purple. Several pollinators are attracted to the flower, especially butterflies. Leave some of the flower heads on to produce seeds for the birds. Blooms June to August, good cut flower. Attracts bees and butterflies.
<i>Echinacea purpurea</i>		Purple Coneflower	30	1 Gallon	\$ 14.00	2-4'	1.5-2'	Full sun	

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Echinacea purpurea</i>	'Kim's Knee High'	Purple Coneflower	20	1 Gallon	\$ 15.00	15-20"	12-18"	Full sun	This cutie is a blooming machine! Knee-high to a grasshopper, it is smaller but mighty. The 3” pink shuttlecock-shaped flowers with golden orange cones begin blooming when they are about knee-high. Perfect for any sunny border, Kim’s Knee High can nestle in a smaller garden when space cannot accommodate larger Coneflowers. Echinacea provide a spectacular show in any sunny summer border.
<i>Echinacea purpurea</i>	'Ruby Star'	Purple Coneflower	70	1 Quart	\$ 10.00	2-3'	2-3'	Full sun	It features daisy-like coneflowers (to 4” diameter) with carmine red to purple rays and large, pin cushion-like, dark bronze-brown central cones. Flowers bloom from June to August with some sporadic later bloom. Lanceolate, dark green leaves (4-8” long).
<i>Echinacea tennesseensis</i>		Tennessee Coneflower	27	1 Quart	\$ 12.00	2'	12-18"	Full sun	Native! Blooms purple July, August, and September, attracts bees and birds, deer resistant.
<i>Helianthus hybrida</i>	'Marc's Apollo'	Marc's Sunflower	12	1 Gallon	\$ 14.00	6-12'	2-3'	Full Sun	Easy to grow, abundant yellow blooms in October, attracts butterflies and bees. Not for the faint of heart and not for the small garden, this graceful giant may reach upwards of 12 feet by the time it’s in full bloom in mid- to late September. I’ve made room for it, even though it’s a little tall, because the show that it puts on is truly stunning—HUNDREDS of butter yellow flowers for nearly 6 weeks from September all the way ‘til frost.
<i>Helianthus maximiliana</i>		Maximilian Sunflower	12	1 Gallon	\$ 14.00	6'	3-4'	Full sun	Native! Blooms 2-3" yellow blooms from August to Ocotober, use along fence, building, as hedge, attracts monarch and other butterflies, and birds.
<i>Heuchera americana</i>	'Green Spice'	Coral Bells	12	1 Quart	\$ 14.00	1.5'-2.5'	1-1.5'	Full to part shade	‘Green Spice’ is a clump-forming coral bells cultivar that features silvery, gray-edged leaves with purple veins (in cool weather) and conspicuous but not particularly showy whitish flowers. The rounded, lobed, long-petioled leaves form a basal mound (to 9” tall) which may spread to 16” wide. Tiny, whitish flowers borne in open, airy panicles appear in late spring to early summer on slender, wiry stems rising well above the foliage mound, typically to 24-28” tall. Leaves turn orangish in autumn.
<i>Heuchera hybrida</i>	'Georgia Peach'	Coral Bells	12	1 Quart	\$ 14.00	1-2.5'	1.5-2	Full to part shade	‘Georgia Peach’ is a vigorous, clump-forming coral bells cultivar noted for its bold foliage which changes colors throughout the growing season. In early spring, large leaves (to 8” across) emerge peach-orange with darker veins. Leaves acquire rose tones as they mature in summer. Leaves further darken to an attractive rose-purple by fall. Foliage in all seasons has a silver-white overlay. Tiny creamy white flowers appear in spires in summer on slender stems rising above the foliage mound to as much as 30” tall.
<i>Heuchera hybrida</i>	'Georgia Plum'	Coral Bells	12	1 Quart	\$ 14.00	7-14"	15"	Full to part shade	An eye-catching mutation out of 'Georgia Peach', tough, with amazing year-round rose-purple leaves, pink to silver overlay, and purple pink flowers. A tighter habit with smaller leaves and shorter flowers than 'Georgia Peach'. Heat and humidity resistant.
<i>Heuchera hybrida</i>	'Stainless Steal'	Coral Bells	12	1 Quart	\$ 14.00	8-12"	15"	Full to part shade	Luminous foliage in glistening silver. Light purple veining and eggplant purple undersides. Foliage matures to pale seafoam green with a subtle purple patina. Pink buds open to reveal showy white flowers in May. Grow in part to full shade for best silver tones. Very heat and humidity tolerant. Heuchera Stainless Steel is bred by Charles and Martha Oliver of The Primrose Path in Scottsdale, PA.
<i>Heuchera hybrida</i>	'Southern Comfort'	Coral Bells	12	1 Quart	\$ 14.00	14"	10-15"	Full to part shade	Extra large cinnamon-peach leaves mature to copper in the fall, making a warm color statement all year. Vigorous parentage makes this a stunner in any climate, including the south. We are pleased to be offering these wonderful perennial plant selections from Dan Heims at Terra Nova.
<i>Hibiscus coccineus</i>		Scarlet Rose Mallow	12	1 Gallon	\$ 20.00	3-6'	2-3'	Full to part shade	<i>Hibiscus coccineus</i> is a vigorous, sturdy, erect, woody-based perennial that typically grows 3-6' tall and features showy, hollyhock-like, 5-petaled, bright scarlet red flowers (3-5" diameter) borne in the upper leaf axils of the plant over a long, mid-summer to early fall bloom period. Each flower has a prominent and showy center staminal column. Hemp-like, palmately compound, deep green leaves (5-6" wide). Sometimes commonly called swamp hibiscus because it is native to marshes and swamps in Alabama, Georgia and Florida.
<i>Hypericum frondosum</i>	'Sunburst'	St. John's Wort	15	1 Quart	\$ 12.00	3-4'	3-4'	Full sun to part shade	Native! Hypericum frondosum is a small, dense, upright, mounded deciduous shrub that is noted for its large showy golden yellow flowers and attractive blue-green foliage. It grows to 3-4’ tall and as wide. It is native from Kentucky to North Carolina south to Georgia, Alabama and Texas where it typically occurs in rocky hills, limestone glades and barrens. Features linear to oblanceolate blue green leaves (to 3” long) and mostly solitary bright yellow 5-petaled flowers (to 1.75” diameter) with dense bushy center stamens. Blooms in June and July. Flowers give way to reddish-brown narrow ovoid fruit capsules that ripen in September and persist well into winter. Attractive exfoliating reddish-brown to purplish bark develops on mature stems. Foliage is semi-evergreen to evergreen in the southern part of its growing range. Hedge. Shrub border. Foundations. Effective when massed. Drought tolerant.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Laurentia fluviatilis</i>		Blue Star Creeper	18	4" Pot	\$ 6.00	2-3"	1-2'	Part shade to dappled	Blue Star Creeper is an evergreen, herbaceous perennial, spreading ground cover with small, light blue flowers that blossom in spring. The plant is a native of Australia with a low-growing habit, often creating a mat as it forms roots and spreads. It flowers in early spring into summer and produces a carpet of white-blue five-petalled star-shaped flowers, making it a colorful groundcover. Because it is shade tolerant, it is a good ground cover for growing under taller plants. It is often found growing in moist sand or mud along the margins of creeks and streams, or among granite outcrops and wet depressions. This evergreen plant is easily ripped apart into small pieces, which make new plantings for early spring.
<i>Lobelia cardinalis</i>		Cardinal Flower	20	1 Gallon	\$ 14.00	4-5'	1'	Full sun to part sun	NATIVE! Blooms July to September, attractive bright red flowers. The shiny leaves are alternate with a toothed margin and their rhizomes overwinter with small rosettes of leaves. Brilliant red blooms first mature in late summer and continue into mid-fall. The showy flowers begin opening at the bottom of a terminal flower spike and continue to the top. This plant is effective in moist areas of woodland/shade gardens, wet meadows, or along streams or ponds. Also water gardens and rain gardens. It also adds late summer bloom and height to borders as long as the soil is kept uniformly moist. It attracts hummingbirds and butterflies making it a welcome addition to a pollinator garden.
<i>Lobelia siphilitica</i>		Great Blue Lobelia	29	1 Quart	\$ 12.00	2-3'	1-1.5'	Full sun to part sun	Native! Typically grows in moist to wet locations along streams, sloughs, springs, swamps, meadows and in low wooded areas. A clump-forming perennial which features light to dark blue, tubular, 2-lipped flowers with the three lobes of the lower lip appearing more prominent than the two lobes of the upper lip. Flowers arise from the upper leaf axils forming a dense terminal raceme atop stiff, unbranched, leafy stalks typically rising 2-3' tall. Finely-toothed, lance-shaped, light green leaves (to 5" long). Late summer bloom period.
<i>Lobelia siphilitica</i>		Great Blue Lobelia	23	1 Gallon	\$ 14.00	2-3'	1-1.5'	Full sun to part sun	
<i>Monarda didyma</i>	'Jacob Cline'	Bee Balm	20	1 Gallon	\$ 14.00	4-5'	14-18"	Full sun to part sun	The plants explode with very large, fiery red flowers just as summer begins. Monarda Jacob Cline is considered to be the very best red variety on the market. Hummingbirds love them! A carefree, strong grower. Exquisite when paired with Achillea or Russian Sage. These tall plants add vertical accent to the back of the border. Their whimsical jester hat-shaped blossoms add playful shapes and textures.
<i>Nepeta x faassenii</i>	'Junior Walker'	Catmint	12	1 Quart	\$ 10.00	18"	24-30"	Full sun	What's the buzz? Beneficial pollinators will make a beeline for drifts of blushed lavender-blue flower spikes. Provides movement and sound to any sunny border. Lacy spikes dance above aromatic, sage-green, compact foliage. Nepeta Junior Walker is at home lining a sunny pathway or as a lacy filler spilling over the edges of your favorite container. Catmint is absolutely trouble-free – dependable, long-blooming, deer, and rabbit-resistant!
<i>Nepeta</i>	'Purrsian Blue'	Catmint	12	1 Quart	\$ 10.00	18"	30"	Full sun	The tidy, naturally rounded habit doubles its width in the second year. Dark purple calyxes surround the periwinkle blue flowers rising from the foliage. Low maintenance, drought tolerant, deer resistant, long blooming; looks great all season. Will not seed. Nepeta are smothered with blossoms in summer. One of the best perennials to edge or underplant a rose bed. Its long season of bloom and carefree habit make N. Purrsian Blue a good companion to Coreopsis and Hemerocallis. Blooms early summer to late summer. Beneficial to pollinators, attracts butterflies and hummingbirds, deer and rabbit resistant, hot dry site tolerant, good for slope or bank.
<i>Oenothera macrocarpa</i>		Missouri Evening Primrose	15	1 Quart	\$ 10.00	8-10"		Full sun	Native! Stunning, large, four-petaled yellow flowers open in the early evening on a handsome plant with low, mounding habit. Flowers are open for only one evening, but the plant flowers over a long period of time. Attracts hummingbirds and moths. Very long bloom time.
<i>Penstemon digitalis</i>		Foxglove Beardtongue	30	1 Quart	\$ 10.00	3-5'	1.2-2'	Full sun	Flowers bloom mid-spring to early summer and are attractive to hummingbirds, butterflies, and other pollinators. Basal leaves are elliptic and stem leaves are lance-shaped to oblong. Best grown in average, dry to medium moisture, well-drained soil in full sun. Tolerant of occasional drought and inundation once established. Can be grown in clay soils but avoid overly wet, poorly drained conditions.
<i>Penstemon pallidus</i>		Pale Beardtongue	30	1 Quart	\$ 10.00	12"	12"	Full to part	Native! Blooms May, June, July, attracts pollinators and birds, blooms white, medium-dry to dry soil moisture once established. Pale Beardtongue likes drier soils; rocky, gravel or sand, and blooms earlier than most other Penstemons. The whole plant is covered in soft white hairs. Penstemon's tubular flowers are a favorites of long-tongued bees such as bumblebees, carpenter bees, and mason bees. Deer and rabbits generally do not show much interest in Penstemon species. The seeds are so tiny that they can be carried by the wind.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Phlox paniculata</i>	'Jeana'	Garden Phlox	70	1 Quart	\$ 10.00	3-4'	24"	Full sun	Native! 2024 PPA Perennial of the Year. Domed clusters of densely packed, lilac pink florets are butterfly magnets! Touted as maintaining outstanding mildew resistance and receiving the most butterfly visits during a 2-year study at Mt. Cuba Center in Delaware. This study at their botanical gardens was done by 15 volunteers of the Pollinator Watch Team who conducted weekly observations over a two-year period of over 94 selections of different Phlox species. Jeana with 539 butterfly visits was by far the most popular for butterflies – especially eastern tiger swallowtails. A showstopper in the garden or your favorite vase. Top-Notch Mildew Resistance! Attracts butterflies, and hummingbirds, good cut flower, fragrant. Blooms mid-summer to early fall.
<i>Pulmonaria</i>	'Opal'	Lungwort	12	1 Gallon	\$ 20.00	12-14"	24"	Part to full shade	Popular for its deer resistance, spotted foliage and spring flowers that are most often in hues of pinks and blues, this near-white (pale blue) selection will be just as useful and lovely in the shady border.
<i>Pulmonaria</i>	'Spot On'	Lungwort	18	1 Gallon	\$ 20.00	14-16"	18-20"	Part to full shade	Unique color hue to the genus with its almost orange flower buds that open to pink, then mature to shades of purple and blue. The flowers are set off by eye-catching green foliage that is splattered with silver. Pulmonarias spread slowly by rhizomes, forming a nice sized patch of foliage. Used as an edging or border plant, Pulmonaria ‘Spot On’ also looks impressive planted in masses and is perfect in the woodland garden. It provides all season interest and combines wonderfully with other shade loving plants such as hosta, ferns, and polemonium.
<i>Pycnanthemum muticum</i>		Mountain Mint	50	1 Gallon	\$ 14.00	3'	3'	Full sun to part shade	<i>Pycnanthemum muticum</i> , commonly called mountain mint or short-toothed mountain mint or clustered mountain mint, is a clump-forming aromatic perennial. It is native to Eastern North America (Maine to Michigan to Illinois and Missouri south to Florida and Texas) where it typically grows in grassy open places, meadows, fields, low woodland areas. When planted in groups or massed, the silvery bracts give the entire planting the appearance of being dusted by a white powdery snow. Flowers are attractive to butterflies and bees.
<i>Rudbeckia triloba</i>		Brown Eyed Susan	15	1 Quart	\$ 10.00	2-3'	1-1.5'	Full sun	This biennial or short-lived perennial is easily grown in average, moist, well-drained soils in full sun. Tolerates light shade, but plants may need support if grown in too much shade. Best in moist, organically rich soils. Tolerates heat, some drought and a somewhat wide range of soils.This is a densely-branched plant that typically grows to 2-3’ (less frequently to 5’) tall. Daisy-like flowers (to 1 1/2” diameter) featuring 6-12 yellow rays and brown-purple center disks bloom profusely from summer to fall.
<i>Rudbeckia triloba</i>	'Prairie Glow'	Brown Eyed Susan	12	1 Gallon	\$ 14.00	3-4'	15"	Full sun	Late Summer Color Spicy burnt orange red blooms tipped in glowing yellow surround a chocolate disk. Blooms sway on heavily branched burgundy stems. Pairs nicely with taller grasses and goldfinches love the seed. In meadows, along the roadside or in your garden bed, Rudbeckia are one of the most versatile and recognized perennials. Picture-perfect punctuated with butterflies. Flower color and smaller blossoms brings to mind the colorful autumn treat - candy corn.
<i>Salvia greggii</i>	'Maraschino'	Salvia	12	1 Gallon	\$ 14.00	36"	18"	Full sun to part shade	Must have good winter drainage. Maraschino comes into bloom in the summer and into fall with a stunning display of deep cherry red flowers. Very cold hardy, this beauty likes to be placed where it gets the morning sun but shade in the heat of the afternoon. A hummingbird's delight! Drought resistant/drought tolerant plant (xeric). The bright red flowers resemble maraschino cherries floating in a sea of green leaves. Attracts pollinators, bees, butterflies, hummingbirds, and moths. Deer, rabbit, humidity, and heat tolerant.
<i>Salvia greggii</i>	'San Antonio'	Autumn Sage	12	1 Gallon	\$ 14.00	2-3'	2-4'	Full sun	Must have good winter drainage. Shiny elliptic leaves and pale-yellow flowers that are blushed with peach through much of the year with peak bloom in early summer until first frost in fall.
<i>Sedum spectabile</i>	'Autumn Fire'	Upright Stonecrop	12	1 Gallon	\$ 15.00	18-14"	15"	Full sun	Reliable, Hardy, Easy to Grow Sedum Autumn Fire offers all the usefulness and wide appeal of the classic Sedum Autumn Joy but has more intensely brick red flowers in the fall. Strong stems remain upright. Let dried flower heads remain for nice winter interest. Stonecrop are a reliable, hardy, and easy-to-grow perennial. Sedums provide color and interest to your garden from the spring through the first snow of winter.
<i>Stachys x</i>	'Summer Romance'	Betony	30	1 Gallon	\$ 15.00	1.5-2'	2-2.5'	Full sun	Easily grown in average, medium, well-drained soils in full sun. Appreciates some light afternoon shade in hot, humid climates. Soils should be kept evenly moist, but established plants have some drought tolerance. Spreads by creeping stems (stolons) that root as they go along the ground. Plant 12-18” apart for use as a ground cover. ‘Summer Romance’ has a summer display of wand-like inflorescences with violet flowers that stand up to 2 feet above dense, green foliage. Can be used as a groundcover, or along the edge of a bed, and will spread over time to fill in an area. ‘Summer Romance’ has a summer display of wand-like inflorescences with violet flowers that stand up to 2 feet above dense, green foliage. Can be used as a groundcover, or along the edge of a bed, and will spread over time to fill in an area.
<i>Tiarella x</i>	'Spring Symphony'	Foam Flower	12	1 Quart	\$ 15.00	0.5-1'	0.5-1'	Part to full shade	Easily grown in average, medium moisture, well-drained soil in part shade to full shade. Prefers humusy, organically rich, moisture-retentive soils. Soil should not be allowed to dry out. Avoid wet soils which can be fatal particularly in winter. Removal of flower spikes after bloom will improve the appearance of the foliage mound. Showy, fragrant, deer resistant, multiple season interest.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Tricyrtis</i>	'Sinonome'	Toad Lily	20	1 Gallon	\$ 14.00	2.5-3'	1-2'	Part sun to full shade	'Sinonome' is a hybrid cultivar that typically grows in a vase-shaped clump to 30-36" tall on upright stems slightly arching near the top. In optimum growing conditions, it will spread by rhizomes to form large colonies. It features small, creamy white, lily-like flowers (1" long) with burgundy-purple spotting and blotching. Flowers appear in clusters in the upper leaf axils and stem tips. Flowers bloom in late summer to fall (early September into October in St. Louis). Each flower has six showy tepals (similar appearing sepals and petals). Ovate, medium green leaves (to 4" long). 'Sinonome' has reportedly been a popular selection of the cut flower industry in Japan for a number of years now due to its long flowering stems. Blooms September to October.
Grasses									
<i>Carex appalachica</i>		Appalachian Sedge	10	1 Gallon	\$ 14.00	8"	16"	Part shade	<i>Carex appalachica</i> is a fine-textured <i>Carex</i> native to the Appalachian Mountains northward through New England. Aesthetically the foliage and overall dimensions of this plant resemble <i>Carex pensylvanica</i> , although <i>C. appalachica</i> is a clump-forming species rather than spreading. <i>Needs well-drained soil. Flourishes on well-drained slopes and looks nice with other woodland plants. Effective turfgrass lawn alternative.</i>
<i>Carex oshimensis</i>	'Everillo'	Sedge	14	1 Gallon	\$ 14.00	1.5-2'	1.5-2'	Part shade	A fine-textured sedge that typically grows in a low, grass-like mounded clump to 10-16" tall and as wide. It is native to dry woods and rocky slopes throughout Honshu Island, Japan. This sedge features narrow leaves (typically to 16" long by 5/16" wide). Insignificant brownish flower spikes appear on triangular stems in spring. This sedge is evergreen in the deep South, maintaining good foliage in both summer and winter.
<i>Schizachyrium scoparium</i>		Little Bluestem	10	1 Quart	\$ 10.00	3'	3'	Full sun	Native! Little Bluestem is a highly ornamental native grass prized for its blue-green leaf color and upright form. The foliage provides excellent color all season-long and creates the perfect backdrop for prairie flowers. Densely mounded, Little Bluestem reaches a height of 3 feet by autumn, when it turn a striking reddish-bronze, bearing illuminated tufted seeds. The rigid clumps can withstand snow and rain, allowing the reddish grass stems to remain upright for most of the winter. his prairie grass excels in dry sandy soils and combines well with all prairie flowers. It is fairly adaptable, but not recommended for damp sites or heavy clay soils. Little Bluestem is a host plant for numerous skipper butterflies including the Cobweb Skipper, Dusted Skipper, Ottoe Skipper, Delaware Skipper, Crossline Skipper and Swarthy Skipper.
Vines									
<i>Clematis</i>	'Sweet Summer Love'	Clematis	8	1 Gallon	\$ 25.00	10'	6-10'	Full to part sun	Wouldn't it be great if sweet autumn clematis flowered sooner, flowered longer, and came in other colors? Now it does! 'Sweet Summer Love' clematis gives you everything you want: flowers, fragrance, vigorous growth, and violet and purple blooms that start over a month earlier than convetional sweet autumn clematis. This breakthrough vine was developed by award-winning clematis breeder Szczepan Marczynski of Poland.
<i>Clematis</i>	Clematis Guernsey Cream	Clematis	3	1 Gallon	\$ 20.00	6-8'		Full to part sun	Creamy, white flowers with yellow-green bar that matures to white, blooms spring, summer
<i>Clematis</i>	Clematis Huldine	Clematis	4	1 Gallon	\$ 20.00	12-20'		Full to part sun	White flowers with yellow anthers, blooms mid-summer to mid-fall
<i>Clematis</i>	Clematis Princess Diana Texensis	Clematis	4	1 Gallon	\$ 20.00	6-8'		Full to part sun	Deep, reddish pink with cream and maroon stamens, blooms summer to early fall
<i>Clematis</i>	Clematis Jackmanii	Clematis	6	1 Gallon	\$ 20.00	12'	4'	Full to part sun	Imported from England in the 1850s; our forefathers did not want to leave this beauty behind. Clematis Jackmanii has an incredible number of single, royal-purple blossoms that are produced in June, July, and September. A true garden Classic. Gracefully meandering over fences, trellises, or through shrubbery, Clematis supply vertical interest. Every perennial garden should have at least one of these incredible vines. Tolerates bright shade.
<i>Clematis</i>	Clematis Vit Betty Corning	Clematis	5	1 Gallon	\$ 20.00	5-6'		Full to part sun	Soft lavender-blue flowers, fragrant, bell shaped, blooms summer, fall
<i>Clematis</i>	Clematis Vit Etoile Violette	Clematis	4	1 Gallon	\$ 20.00	8-12'		Full to part sun	Velvety, dark purple flowers, mid-summer to early fall
<i>Clematis</i>	Clematis Vit MME Julia Correvon	Clematis	6	1 Gallon	\$ 20.00	9-12'		Full to part sun	Wine red, star-shaped flowers with creamy yellow stamens, blooms summer, fall

Scientific Name	Cultivar	Common Name	Qty	Size	Price	Height	Width	Sun/Shade	Description
<i>Lonicera reticulata</i>	KINTZLEY'S GHOST	Grape Honeysuckle	18	4"	\$15 EACH/ 3 FOR \$42	6-12'	5'	Full to partial sun	NATIVE! One-of-a-kind native honeysuckle and hope that this helps it get out there at scale. If you haven't had the pleasure of getting to know this plant, let us introduce you: it was originally discovered by William "Ped" Kintzley, a professor at Iowa State University. In spring, its foliage emerges looking like any other honeysuckle, but as it gets going and develops flower buds, unique blue-white, saucer-shaped bracts form around them, and tubular yellow flowers emerge from the center. They have a light scent and do attract pollinators, including hummingbirds, but it's the bracts that make everyone ask, what is that?! They look quite a bit like a eucalyptus, and remain effective on the plant until it defoliates in autumn. Flowers fade to reveal glistening red berries in each bract, but not to worry - this North American native species is not invasive and won't make a nuisance of itself.
<i>Lonicera reticulata</i>	KINTZLEY'S GHOST	Grape Honeysuckle	14	1 Gallon	\$ 25.00				
<i>Lonicera sempervirens</i>	'Magnifica'	Trumpet Honeysuckle	30	1 Quart	\$ 12.00	4-7'	24-36"	Full sun	Native! Lonicera sempervirens 'Magnifica' prefers average, well-drained soils in full sun to part shade. More sun will give you more flowers. Tolerant of drought and dry soils once established, but either may reduce flower production and growth. Blooms on previous year's growth and new growth, so you can trim it back or leave it be. Prune to best suit your site. Lonicera sempervirens is a twining vine and needs small to medium width support to climb. Ideal on a trellis or open fence. Can climb a wood fence with help getting started. The sweetly-scented tubular orange flowers of this native honeysuckle often attract hummingbirds to the garden throughout the summer. Flowers are followed by bright red fruit, attractive to birds.
<i>Lonicera sempervirens</i>	'Major Wheeler'	Trumpet Honeysuckle	30	1 Quart	\$ 12.00	6-10'	2-4'	Full sun	Native! Bring on the hummingbirds: Lonicera sempervirens 'Major Wheeler' produces a blanket of tubular, reddish orange to coral flowers from late spring through summer. Later, the vines' red berries attract goldfinches and robins. It's a selection of native Honeysuckle species, Lonicera sempervirens, and plants are both carefree and noninvasive. They bloom on the previous year's growth as well as new growth. Regular pruning is not required—any pruning to shape the vine can be done once flowering is over for the season. Do provide a trellis, fence, or post with wire grid for support. Blooms June - August.
<u>Ferns</u>									
<i>Polystichum acrostichoides</i>		Christmas Fern	21	1 Gallon	\$ 14.00	1-2'	1-2'	Part to full shade	Native! Typically grows in a fountain-like clump to 2' tall and features leathery, lance-shaped, evergreen (green at Christmas time as the common name suggests) fronds. Stocking shape of the pinnae also suggests Christmas. Crosiers (young fiddleheads) in spring are silvery and scaled. Sori appear on the undersides of the pinnae only at the ends (last 1/3) of the fronds. Evergreen fronds provide good winter interest for the landscape. Tolerant of rabbit, deer, drought, heavy shade, erosion, dry soil, shallow-rocky soil.
<i>Matteuccia struthiopteris</i>		Ostrich Fern	14	1 Gallon	\$ 14.00	3-6'	5-8'	Part shade to full shade	Easily grown in average, medium to wet soils in part shade to full shade. Best in rich soils with constant moisture. Soil must never be allowed to dry out. Spreads by underground rhizomes to form dense colonies in optimum growing conditions. Clump-forming, upright to arching, rhizomatous, deciduous fern which typically grows 2-3' tall in cultivation, but may reach 6' tall in moist, cool climates in the wild. The showy parts of this fern are the finely dissected, medium green, vegetative (sterile) fronds which, as the common name suggests, exhibit the feathery appearance of long ostrich plumes.
<u>Vegetables</u>									
<i>Beta vulgaris</i>	'Bull's Blood'	Beet	18	4"	\$ 4.00			Full sun	Heirloom variety; commonly used for attractive, tasty beet greens. Harvest dark red-purple foliage in 35 days for baby leaf tops; 60 days to maturity. The leaves are a deep red, while the root itself is a dark purplish-red, making it visually appealing on the plate.
<i>Beta vulgaris</i>	'Detroit Dark Red'	Beet	12	6 Pack	\$ 6.00			Full sun	Tender and delicious, these 2½"–3" beautiful, deep crimson beets do not get woody as do smaller varieties if allowed to grow large. Perfect for pickling, roasting, and even raw in salads! The greens rival chard and spinach for tenderness and flavor, and are very nutritious.
<i>Beta vulgaris subsp. Vulgaris</i>	'Fordhook Giant Swiss Chard'	Swiss Chard	18	4"	\$ 4.00			Full sun	Fordhook Giant' is an old favorite with its broad, strong stems and large leaves packed with vitamins and minerals. A vigorous grower with a long growing season, it will provide fresh greens from early summer into fall, and year-round in mild climates. White stem varieties are generally more bolt and cold tolerant and more productive than colored stem varieties. Young leaves are great for salads. Glows in containers as an ornamental.
<i>Brassica oleracea</i>	'Dazzling Blue'	Kale	12	6 Pack	\$ 6.00			Full sun	Be dazzled by the striking colors of this extra-cold-hardy kale—more cold tolerant than other lacinato types. The striking purple midrib pops against the blue-green leaves, some of which may take on more purple hues in the cool temperatures of fall. Lacinato kale is ideal for kale salads and other fresh culinary endeavors. Pick tender, baby greens for fresh salads, chips, or cooking.

<i>Brassica oleracea</i>	'Early Purple Sprouting'	Broccoli	36	4"	\$ 3.00			Full sun	Victory Seed. 200 days - Instead of being developed to put all of its energy into producing a single, densely packed head as is popular on today's produce stands, 'Early Purple Sprouting' broccoli produces loads of shoots, each with small purple heads, lending itself to longer and more abundant harvests. A very old variety, 'Early Purple Sprouting' broccoli was historically used for over-wintering for spring harvesting.
<i>Brassica oleracea</i> var. <i>capitata</i>	'Bruswick'	Cabbage	18	4"	\$ 3.00			Full sun	Victory Seed, 90 days - 'Brunswick' is a large drumhead-type cabbage variety. It is a cold hardy, highly adapted variety that is suitable for spring as well as fall/winter harvesting that stores quite well. Produces solid heads around 8-10" in diameter, weighing 6-10lb. Although its exact history is elusive, we know that 'Brunswick' is an old German kraut-variety. Here in the United States, it appears in the oldest seed catalogs that we have in our library, dating back to the early 1870s.
<i>Brassica oleracea</i>	'Perfection Drumhead'	Savoy Cabbage	18	4"	\$ 3.00			Full sun	95 days. This large drumhead-type has finely-crinkled, savoyed leaves that are mild and sweet in flavor; compact short-stemmed plants. This heirloom was introduced before 1888 and is an excellent keeper.
<i>Brassica oleracea</i>	'Purple Savoy'	Purple Savoy Cabbage	18	4"	\$ 3.00			Full sun	61-65 days. This prized, early-heading Cabbage bestows us with dense, solid orbs that are as beautiful as they are deliciously sweet. Normally growing from 1 to 3 pounds, its blushed purple and pale green heads have artistic, intricately savoyed, crinkled leaves. A photographed star at farmer's markets, it can get a big head, weighing in at up to 5 pounds. Long-lasting, it can serve as storage Cabbage too! (OP.)
<i>Brassica juncea</i>	'Florida Broadleaf'	Mustard	12	6 Pack	\$ 6.00			Full sun	Florida Broadleaf' can't be beat—flavor and productivity have made it a long-time favorite of Southern gardeners and cooks. Gardeners everywhere can grow and enjoy these healthful, delicious greens. Small leaves can be harvested for baby greens and added fresh to salads. Large leaves can be prepared a variety of ways.
<i>Brassica juncea</i>	'Red Giant'	Mustard	12	6 Pack	\$ 6.00			Full sun	Very slow-bolting, broadleaf mustard. Purple-tinted leaves with gently scalloped margins. Plant densely so leaves remain a proper size for baby leaf and petioles elongate for easy harvest. Somewhat spicy mustard flavor.
<i>Brassica oleracea</i> var. <i>botrytis</i>	'Early Snowball'	Cauliflower	18	5"	\$ 4.00			Full sun	55 days - The heads of 'Early Snowball' are smooth, pure white in color, each averaging between three to five pounds in weight, and about six inches across. It is a medium-sized plant with good foliage coverage and mature uniformly. It is reliable, excellent fresh, and also freezes well.
<i>Brassica oleracea</i> var. <i>italica</i>	'Di Cicco'	Broccoli	36	4"	\$ 3.00			Full sun	An Italian classic, 'Di Cicco' is a superb variety, producing numerous, small to medium-sized heads well into the summer for more delicious broccoli more often! We recommend harvesting the main head when it is 3" in diameter; this will encourage side shoots. 'Di Cicco' is a good freezer variety; leaves are also edible, cooked like chard.
<i>Brassica rapa subsp. chinensis</i> (hybrid)	'Georgia Southern'	Collards	6	6 Pack	\$ 6.00			Full sun	A staple in the South, collards are a nutritious and versatile vegetable that grows in hot or cold regions with ease. 'Georgia Southern' has been enjoyed since the 1800s. The large leaves not only make delicious steamed greens, they also make fantastic wraps (a low-calorie substitute for tortillas), and when young, hearty salad greens. Fall frosts make them sweeter, and they may overwinter, as they can survive temperatures down to 20°F. Excellent container variety.
<i>Brassica rapa subsp. chinensis</i> (hybrid)	'Georgia Southern'	Collards	18	4"	\$ 3.00			Full sun	
<i>Lactuca sativa</i>	'Rocket'	Arugula	6	6 Pack	\$ 6.00			Full sun	
<i>Lactuca sativa</i>	'Australe'	Butterhead Lettuce	6	6 Pack	\$ 6.00			Full sun	It's hard not to love this easy-to-grow lettuce. The stunning bright green leaves are dusted with almost iridescent bronze tips. "Australe" reminds us of a cross between a traditional butterhead due to its buttery texture and a mini romaine because of its upright growing habit. Harvest as baby greens around 21 days or as a full head at 55 days.
<i>Lactuca sativa</i>	'Buttercrunch'	Butterhead Lettuce	6	6 Pack	\$ 6.00			Full sun	Buttercrunch' is a vigorous grower with a creamy yellow interior, buttery flavor and melt-in-your-mouth texture, pleasing palates since 1963. Small heads are perfect for a single-serve salad. The compact size makes it a good container variety, and it's also attractive in the flower-garden border. All-America Selections Winner.
<i>Lactuca sativa</i>	'Parris Island'	Romaine Lettuce	6	6 Pack	\$ 6.00			Full sun	Crunchy, sweet leaves, buttery-green heart, and vigorous growth are a few ways to describe 'Parris Island Cos' romaine. Developed by the USDA and Clemson University around 1950, this nutritional, 10"-12", upright lettuce will soon be a favorite in your garden and your kitchen, full grown or as a baby green in as little as 21 days. Ideal for lettuce wraps. Plants resist tipburn and are mosaic virus tolerant.
<i>Lactuca sativa</i>	'Little Gem Cos Lettuce'	Romaine Lettuce	6	6 Pack	\$ 6.00			Full sun	Heirloom mini-romaine. 'Little Gem' lettuce is relatively heat tolerant, with small, about five inches across, bright green heads, crisp, crunchy hearts, and an excellent flavor.
<i>Lactuca sativa</i>	'Kolibri'	Butterhead Lettuce	18	4"	\$ 3.00			Full sun	Gorgeous speckled mini bibb. Fast-maturing Gem type with uniform speckling across head and leaves. Deep red speckling holds well on outer leaves and underneath leaves. Red blush at maturity. Impressive field-holding and tipburn resistance.

Herbs									
<i>Anethum graveolens</i>	'Tetra'	Dill	54	4"	\$ 5.00			Full sun	The refreshing flavor of dill will surely win you over (if you don't already love it)! 'Tetra' is a bushy, late flowering variety, meaning more leaf production for dill lovers. It is heat tolerant which makes it slow-to-bolt, so you will enjoy fresh picked, aromatic dill throughout the season. Dill is an important host plant for caterpillars of swallowtail butterflies.
<i>Allium schoenoprasum</i>	'Dolores'	Chives	15	1 Quart	\$ 10.00				Uniform, slender leaves for fresh use. Highly consistent upright habit with fine dark green leaves. Ideal for gourmet use.
<i>Coriandrum sativum</i>	'Long Standing Santo'	Cilantro	18	4"	\$ 5.00			Full sun	Long Standing Santo' in particular has excellent flavor, improved leafiness and, as the name infers, it is slow to bolt. Add a sprig to chicken soup or add chopped leaves to Mexican, Caribbean, or Asian dishes. The crushed seeds add intriguing flavor to stews, beans, and cookies. Can be grown indoors for fresh cilantro leaves year-round. Cilantro grows best in cool temperatures.
<i>Lavandula x</i>	'Provence'	Lavender	20	1 Gallon	\$ 18.00			Full sun	Must have good winter drainage. A highly fragrant evergreen shrub with gray-green foliage and abundant purple flower spikes. A wonderful addition to dry, sunny borders and gardens. Useful as hedge or edging in herb gardens. Highly effective in mass plantings. Flowers may be dried and crushed to use in sachets.
<i>Mentha</i>	Various cultivars	Mint	18	4" Pot	\$ 5.00			Full to part sun	The aroma of mint will make you close your eyes as your thoughts drift to a summer day. Mint not only enhances iced tea and mixed drinks, it is also a wonderful surprise flavor in savory dishes, including meats, stews, and vegetable fritters. Tiny flowers are loved by bees.
<i>Origanum syriacum</i>	'Zaatar'	Sweet Marjoram	15	1 Quart	\$ 8.00			Full sun	Native to the Mediterranean, where it has flavored meals for thousands of years. Soft gray-green leaves on plants with a semi-upright habit. Flavor combines those of sweet marjoram, thyme and oregano. Not to be confused with Za'atar, an herbal blend of several ingredients. Grow as a tender perennial—start indoors and keep out of freezing temperatures. Harvest stems when they reach at least 4–6".
<i>Petroselinum crispum</i>	'Peione'	Italian Parsley	30	1 Quart	\$ 8.00			Full to part sun	High leaf mass on thick, upright stems for easier harvest. Compared to the standard parsley Giant of Italy, Peione has larger and darker green leaves, a more uniform plant habit, and sweeter flavor. Flat-leaf type.
<i>Rosmarinus officinalis</i>	'Blue Spire'	Blue Spires Rosemary	20	1 Gallon	\$ 15.00			Full sun	Must have good winter drainage. This highly aromatic shrub has unique light grey-green foliage, covered with clear blue flowers over a long season. Popular in herb gardens or as an informal hedge or screen. Easily pruned into topiary forms. A hardy, drought tolerant evergreen that requires little care, once established. Thrives in poor soil, provided it is well-drained.
<i>Thymus citriodorus</i>		Lemon Thyme	18	1 Gallon	\$ 10.00			Full sun	Lemon Thyme looks and grows like English Thyme but has the taste and scent of lemon! Use Lemon Thyme in any recipe that calls for lemon flavoring or lemon zest to avoid bitterness or overpowering with citrus flavor. Lemon Thyme is best added early on in the cooking process, when left to simmer, its lemon flavor slowly infuses the dish.
Fruit									
<i>Prunus x</i>	EASY AS PIE	Bush Cherry	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4.5'	3-4.5'	Full sun	They say life is just a bowl of cherries...and Easy As Pie bush cherry (<i>Prunus x</i>) will give you bowls and bowls of fresh fruit every summer without any spraying or fussy pruning. This is an easy-going, easy-growing bush cherry that takes up just a fraction of the space as a cherry tree but produces abundant crops of very juicy, very tart cherries. It also has none of the disease issues that plague cherry trees, making it an easy choice for any sunny spot in a landscape or garden. Plant one as a standalone, as no pollinator is needed, or imagine an edible hedge with enough fruit for cooking, baking, and canning. White flowers in spring and vivid yellow and orange fall foliage keep it interesting all season long.
<i>Rubus</i>	TASTE OF HEAVEN 'Ponca'	Thornless Blackberry	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-5'	2-3'	Full sun	Taste of Heaven blackberry (Rubus 'Ponca') is the sweetest, most flavorful blackberry on the market - and now you can grow it at home. And we know because we tasted literally hundreds of different blackberry varieties before deciding this would be the one to make it on to further testing. Taste of Heaven is a vigorous, thornless blackberry that produces large, luscious fruits over several weeks in summer. It's a florican variety, fruiting only on second-year canes, and does not strictly require trellising or support, though in the garden, it is easier to care for and harvest with something in place.
<i>Vaccinium corymbosum</i>	SPLENDID Blue	Highbush Blueberry	32	PW Quart	\$15 EACH/ 3 FOR \$42	3-4'	3-4'	Full sun	Splendid! Blue blueberry is the rare blueberry that combines incredible sweetness and flavor with genuine ornamental value. This tidy highbush blueberry naturally grows as a neat, rounded mound of dusky blue foliage that looks great with other plants and any color of home - even difficult-to-complement red and orange brick. Spring brings lovely white flowers, and summer sees the development of luscious blueberries that are very sweet and flavorful. It will set fruit without a pollinator but sets more fruit, and larger fruit if a compatible pollinator (any warm climate blueberry should do) is present.
