Conifers									
<i>Chamaecyparis pisifera</i>	CEDAR RAPIDS	Sawara Cypress	10	2.5 Gallon	\$ 35.00	30'	12-15'	Full sun to part shade	A versatile plant that offers year-round color and texture! Cedar Rapids® false cypress will give you a lush evergreen and privacy with a unique texture. This is a fast-growing feathery selection of false cypress with fresh-looking, lime-green foliage. It naturally grows as a dense pyramid and provides year-round coverage. Great as a handsome specimen or for screening or privacy hedging, Cedar Rapids® <i>Chamaecyparis pisifera</i> brings a touch of charm and winter interest to any landscape. Plus, it's deer-resistant, allowing you to enjoy its constant color worry-free.
<i>Thuja occidentalis</i>	STING	American Arborvitae				15-20'	1-1.5'	Full to part sun	Interesting architecture, and this selection of our native Eastern arborvitae (<i>Thuja occidentalis</i>) takes skinny to the max with its sword-like silhouette. Use it to make an exclamation point in garden designs, or fit it into a very narrow bed. Certain to be iconic plant in well-designed landscapes everywhere, from the Shire to Shreveport.
<i>Cephalotaxus harringtonia</i>	'Duke Gardens'	Plum Yew							
<i>Thuja occidentalis</i>	'Variegata'	Elkhorn Cypress							
<i>Chamaecyparis pisifera</i>	'Devon Cream'	Sawara Cypress							
<i>Chamaecyparis pisifera</i>	'Baby Blue Ice'	Sawara Cypress							
<i>Chamaecyparis pisifera</i>	'Curly Tops'	Sawara Cypress

<i>Cryptomeria japonica</i>	'Yellow Twig'	Japanese Cedar							
<i>Juniperus chinensis</i>	'Angelica Blue'	Juniper							
<i>Juniperus conferta</i>	'Golden Pacific'	Juniper							
<i>Picea glauca</i>	'Sanders Blue'	Spruce							
<i>Thuja plicata</i>	'Forever Goldy'	Arborvitae							
<i>Thuja occidentalis</i>	THIN MAN	Arborvitae	10	1 Gallon		\$20.00			
<i>Thuja occidentalis</i>	STING	Arborvitae	32	PW Quart		\$25.00			
<i>Thuja orientalis</i>	'Morgan'	Arborvitae							
Shrubs									
<i>Abelia x grandiflora</i>	TRES AMIGOS	Abelia	32	PW Quart	\$16/3 for \$45	2-3'	3-5'	Full to part sun	A remarkable abelia from Minier Nursery in France with tricolor foliage in shades of green, cream and pink, tinged with yellow in spring. Fragrant white flowers appear continuously throughout summer, and its compact habit suits it ideally to mixed borders, cottage-style gardens, or containers on a terrace or balcony.
<i>Abelia x grandiflora</i>	BRILLIANTINA	Abelia	15	PW Gallon	\$25.00				
<i>Aronia arbutifolia</i>	BERRY SCAPE	Red aronia	16	PW Quart	\$16/3 for \$45	4-5'	4-5'	Full to part sun	What's better than a shrub that's extremely durable and adaptable? A tough shrub that's also colorful and visually captivating! Native from Ontario down to Texas, Berry Scape red aronia is tolerant of drought, heat, and salt and adapts to nearly any soil. In spring, an abundance of white flowers cover this shrub before changing to bead-like fruit that transition from yellow to orange to brilliant red. Red foliage accompanies the fruit for unforgettable fall interest. At just one-third the size of 'Brilliantissima' aronia, Berry Scape fits into many roles in gardens and landscapes. This remarkable shrub was developed by Dr. Mark Brand at the University of Connecticut.
<i>Berberis thunbergii</i>	SUNJOY NEO	Barberry	20	1 Gallon	\$20.00				
<i>Callicarpa x</i>	BUBBLE UP	Beautyberry	32	PW Quart	\$16/3 for \$45	4-6'	2-3'	Full to part sun	NEW! Bubble Up™ beautyberry has us bubbling over with enthusiasm! With delightful pink blooms, vibrant purple berries arriving earlier than other beautyberries, and a versatile upright habit, this callicarpa is sure to be a hit in the garden and at retail. While other callicarpa selections tend to get frosted before the berries color up, thanks to Bubble Up™'s early fruiting, it has fruited with abundance here in Michigan. Its bright purple berries are the perfect unexpected addition to fall cut flower arrangements. Because of its incredible deer resistance, Bubble Up™ callicarpa is included in the Deer Proof Program.
<i>Calycanthus floridus</i>	SIMPLY SCENTSATIONAL	Sweetshrub	32	PW Quart	\$16/3 for \$45	6'	4-5'	Full to part sun	As soon as you come near Simply Scentsational calycanthus, your nose knows: this is something special. It is the calycanthus that actually lives up to - maybe even exceeds - the oft-described (but seldom smelled!) hints of pineapple and bubblegum in the fragrance. Selected and refined over an 18 year period by Spring Meadow's Tim Wood, the blooms of this North American native are an intriguing deep maroon and appear in abundance through late spring and summer. The blooms are powerfully fragrant, even when they are wilted - you've really just got to smell it for yourself.
<i>Calycanthus</i>	'Aphrodite'	Sweetshrub	32	PW Quart	\$16/3 for \$45	6-12'	6-12'	Full to part sun	Add 'Aphrodite' calycanthus to your plant palette. This fast-growing, easy-care sweetshrub is a stand-out plant in any garden or landscape. Very large, showy flowers resemble red magnolias, appearing amid glossy, tropical-looking foliage for months every summer, many times lasting into fall. The abundant 'Aphrodite' sweetshrub blooms really pop in cut flower arrangements. Its flowers are fragrant, though the scent is highly subjective - ask around your staff and see what everyone smells! A beautiful, carefree plant for large spaces developed by Dr. Tom Ranney at NCSU. 'Aphrodite' is fast to produce.
<i>Camellia</i>	JUST CHILL Double Mauve	Camellia	32	PW Quart	\$16/3 for \$45	5-8'	3-5'	Full to part sun	Just Chill® Double Mauve camellia brings an unexpected color to autumn and winter - a bright pink-mauve. Each semi-double flower opens to an elegant bowl-like shape and is perched above thick, leather, dark green evergreen foliage. We have seen very good survival even here in our West Michigan trial gardens but to be safe, are offering this fall-blooming camellia as hardy to USDA zone 7, with potential for USDA zone 6b with protection.
<i>Camellia x sasanqua</i>	WARM HEARTED Pink	Camellia	32	PW Quart	\$16/3 for \$45	10-12'	8-10'	Part sun	NEW! An abundance of clear pink blooms to warm the winter months! Warm Hearted™ Pink camellia flowers prolifically from fall into spring, bringing much-needed interest to warm climate winter gardens. The vibrant pink flowers really pop against the deep, glossy evergreen foliage. This long-flowering, strong-growing, and densely branched landscape tree was developed by John Davy of Panhandle Growers in Milton, Florida. John has been growing and breeding camellias for years, and he clearly knows a good landscape plant when he sees one. The sheer number of flowers and the length of bloom on the Warm Hearted™ series is remarkable.
<i>Camellia</i>	WARM HEARTED Ruby	Camellia							
<i>Cephalanthus occidentalis</i>	SUGAR SHACK	Buttonbush	32	PW Quart	\$16/3 for \$45	4-5'	4-5'	Full to part sun	Dwarf buttonbush! Buttonbush has long been prized as a native, but it was way too big for most landscapes. Not anymore! Sugar Shack® cephalanthus is half the size of conventional varieties, making it much more friendly to residential landscapes. Large, fragrant, orb-shaped blooms in summer become ornamental red fruit, which persists through fall. Glossy foliage and widely adaptable. Winner of the Pennsylvania Horticultural Society Gold Medal in 2024.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	MATURE HEIGHT	MATURE WIDTH	SUN REQUIREMENTS	DESCRIPTION
<i>Chitalpa</i>	EL NINO	Desert Orchid	32	PW Quart	\$16/3 for \$45	10-15'	8-10'	Full to part sun	The dark purple flowers look for all the world like orchids, but this interesting shrub or miniature tree is actually an intergeneric hybrid of desert willow (<i>Chilopsis linearis</i>) and catalpa (<i>Catalpa</i> sp.). <i>Chilopsis</i> is well-known for its tolerance to poor soils and the dry heat of the American Southwest, its <i>Catalpa</i> percentage imbues it with wonderful performance in Asheville, North Carolina, with no signs of mildew. Look for its remarkable blooms to appear in late spring/early summer and sporadically appear throughout the summer, all the better to enjoy its beautiful fragrance. El Niño desert orchid is a new and very special flowering shrub that is as easy to grow as it is beautiful. We have the talent and innovation of NCSU's Dr. Ranney to thank for this new, uniquely compact introduction.
<i>Clethra alnifolia</i>	RIPPLE EFFECT	Summersweet	32	PW Quart	\$16/3 for \$45	3-5'	3-4'	Full to part sun	NEW! A fountain of flowers and fragrance, Ripple Effect™ summersweet was a favorite in our trials, selected for its multiple, successively blooming, floral racemes. The fragrant white flowers bloom abundantly in summer, drawing in bees, butterflies, and other pollinators. The flowers are backdropped by healthy dark green foliage, which gets a lovely blend of fall coloring in autumn. This native <i>Clethra alnifolia</i> has a dense, compact habit, tucking nicely into foundation plantings, mixed borders, or in pollinator or wildlife gardens.
<i>Hydrangea arborescens</i>	INVINSIBELLE SPIRIT II	Smooth Hydrangea							
<i>Hydrangea paniculata</i>	FIRE LIGHT	Panicle Hydrangea	6	PW 3 Gallon					
<i>Hydrangea paniculata</i>	FIRE LIGHT TIDBIT	Panicle Hydrangea	32	PW Quart	\$16/3 for \$45	2-3'	3'	Full to part sun	A dwarf hydrangea, a bit like Bobo®, but with a lower, mounded habit and a lot more color. The late-season blooms emerge a bright lime green, transition to white, and quickly take on hues of dragon fruit pink. A perfect little front of the border plant to pair with Supertunia Vista Bubblegum®. As a bonus, it will often give you a nice display of orange-red autumn foliage.
<i>Hydrangea paniculata</i>	LITTLE LIME PUNCH	Panicle Hydrangea	6	PW 3 Gallon					
<i>Hydrangea paniculata</i>	PINKY WINKY PRIME	Panicle Hydrangea	16	PW Quart	\$16/3 for \$45				
<i>Hydrangea paniculata</i>	POWERBALL	Panicle Hydrangea	16	PW Quart	\$16/3 for \$45				
<i>Hydrangea quercifolia</i>	GATSBY GLOW BALL	Oakleaf Hydrangea	32	PW Quart	\$16/3 for \$45				
<i>Hydrangea quercifolia</i>	'Ruby Slippers'	Oakleaf Hydrangea	6	3 Gallon					
<i>Hydrangea serrata</i>	LET'S DANCE HOT STEPPER	Mountain Hydrangea	32	PW Quart	\$16/3 for \$45				
<i>Hydrangea serrata</i>	TUFF STUFF AH-HA	Mountain Hydrangea	32	PW Quart	\$16/3 for \$45				
<i>Hydrangea x</i>	FAIRYTRAIL GREEN	Cascading Hydrangea							
<i>Hypericum</i>	SUNNY BOULEVARD	St. John's Wort	32	PW Quart	\$16/3 for \$45				
<i>Ilex glabra</i>	GEM BOX PRIME	Dwarf Inkberry Holly	32	PW Quart	\$16/3 for \$45	3-4'	3-5'	Full to part sun	NEW! This updated version of Gem Box® inkberry holly improves on the original version with a denser habit and branching even lower to the ground. Gem Box Prime™ Ilex glabra makes a better container for the grower and retailer, and a better plant for the landscape. Its handsome evergreen foliage, disease resistance, and compact habit make it an excellent native alternative to boxwood. Use Gem Box Prime™ inkberry holly in all the ways a boxwood would be used in the landscape, like hedging, foundation planting, edging, or in containers. Note to growers: proper spacing in production ensures a full, lush plant.
<i>Ilex glabra</i>	STRONGBOX	Dwarf Inkberry Holly	32	PW Quart	\$16/3 for \$45	2-3'	2-3'	Full to part sun	Native boxwood alternative. With its squat, rounded habit, handsome evergreen foliage, and full, dense branching, Strongbox® inkberry is a welcome alternative to boxwood. Lush, deep green, and disease resistant, this plant offers huge potential for the landscape market and home owners alike. Stays green and well-branched right to the ground. Native to North America and highly adaptable.
<i>Ilex x meserveae</i>	CASTLE ROUGE	Blue Holly	16	PW Quart	\$16/3 for \$45	5-8'	4-5'	Full to part sun	Male! Castle Rouge blue holly (Ilex x meserveae) is the biggest thing to happen to blue holly since Kathleen Meserve made the first crosses of Ilex aquifolium and Ilex rugosa back in the 1950s. All season long, its new growth emerges a glossy red-burgundy color for spectacular effect, and once winter comes, the whole plant turns a deep, dark burgundy. It's a male and will serve to pollinate the rest of the Castle series as well as other blue hollies, but unlike conventional male hollies, this one is handsome enough to give pride of place in the landscape.
<i>Itea virginica</i>	LITTLE HENRY	Sweetspire	32	PW Quart	\$16/3 for \$45	2-3'	2-3'	Full-part sun, shade	A Proven Winners® ColorChoice® best-seller, Little Henry® sweetspire is a versatile native shrub that grows in full sun to full shade and thrives in moist soils. Lightly scented, pure white flowers shoot like fireworks from the glossy foliage in summer. Just a fraction of the size of conventional Itea, its mounded, compact stature makes it an improvement over older varieties such as the 'Henry's Garnet'.
<i>Itea virginica</i>	FIZZY MIZZY	Sweetspire	32	PW Quart	\$16/3 for \$45	2-3'	2-3'	Full sun, shade	An unconventional <i>Itea</i> noted for its numerous, heavenward-shooting white, early summer flower spikes. A neat and tidy habit, in a container and in the garden, Fizzy Mizzy® sweetspire has thick, dark green leaves that contrast nicely with the lightly fragrant, pure white blooms. These flowers are enjoyed by people and pollinators alike. This native shrub's compact habit and shade tolerance make it the perfect little shrub to use around the home and in wildlife and woodland gardens. Thanks to Fizzy Mizzy® sweetspire's naturally tidy rounded shape, it needs very little pruning, making it a lovely low-maintenance addition to any garden.
<i>Itea virginica</i>	SCENTLANDIA	Sweetspire	32	PW Quart	\$16/3 for \$45	2-3'	2-3'	Full-part sun, shade	Fabulously fragrant. Sweetspire is beloved for so many reasons: it's native, shade tolerant, deer resistant, has handsome foliage, amazing fall color, very showy flowers, and of course, delicious fragrance. So how could Scentlandia® sweetspire improve on the classic? Better hardiness, for one, so that even gardeners in the colder parts of its hardiness zone can enjoy the fragrance, year after year. It also boasts brighter, more consistent fall color, along with a compact, refined habit.
<i>Leucothoe</i>	PAISLEY PUP	Doghobble	32	PW Quart	\$16/3 for \$45				
<i>Loropetalum</i>	JAZZ HANDS Velvet	Chinese Fringe Flower	32	PW Quart	\$16/3 for \$45				
<i>Myrica</i>	BAYSIDE BONITO	Southern Wax Myrtle	16	PW Quart	\$16/3 for \$45				
<i>Rhododendron x</i>	BLACK HAT	Rhododendron	32	PW Quart	\$16/3 for \$45				
<i>Rhododendron x</i>	PERFECTO MUNDO EPIC PINK	Azalea	32	PW Quart	\$16/3 for \$45	3-4'	3-5'	Full to part sun	The size and quantity of flowers are an ode to the classic appeal of azaleas: rich bubble gum to hot pink single blooms drench the plant with color in spring and again in fall. Like its sister Perfecto Mundo Epic Coral azalea, you'll enjoy huge blooms that look fabulous in the container and in the landscape.
<i>Rhododendron x</i>	PERFECTO MUNDO Orange	Azalea	32	PW Quart	\$16/3 for \$45	2.5'	3-4'	Full to part sun	Fire up the landscape with the blazing-hot hue of Perfecto Mundo Orange azalea. This selection really heats up the series with a warm color and red-hot performance. Like the rest of the Perfecto Mundo azaleas, you can count on outstanding bloom in spring and in fall, with handsome, dark green foliage and a dense, rounded habit to carry it through the between-times.
<i>Rhododendron x</i>	SWEET REWARD PINK	Azalea							
<i>Rhododendron</i>	Assortment of native and evergreen azaleas hand picked by Vivian Abney from Eastfork Nursery!!! If ready, 'Tennessee Orange' and 'Sue's Tennessee Treasure' will also be for sale.								
<i>Sambucus</i>	PINK PONY	Elderberry	32	PW Quart	\$16/3 for \$45				
<i>Symphoricarpos</i>	PROUD BERRY	Coralberry	32	PW Quart	\$16/3 for \$45

Annuals									
<i>Ageratum houstonianum</i>	'Tall Blue Planet'	Ageratum				24-30"		Sun to part shade	Tall, upright, sturdy stems. Tight blue flower clusters. Use as a classic filler for mixed bouquets or plant to attract bees and butterflies to your garden. Ageratum is also known as flossflower or blue mink.
<i>Cosmos bipinnatus</i>	'Versailles Mix'	Cosmos				40-48"		Sun	Early blooming and vigorous. Produces under short days and is also suitable for greenhouse culture during the winter. Strong stems can withstand considerable handling. Blooms are 2 1/2" across in shades of blush pink, pure white, carmine red, and pink with a deep pink eye. Cosmos are also known as garden cosmos.
<i>Cosmos bipinnatus</i>	'Apricotta'	Cosmos				36-48"		Sun	Tall, vigorous, densely branching plants. Delicate single blooms have a slightly ruffled edge and glow in shades of blush, apricot, and rose. We have observed variation in bloom color: some flowers are lighter in color, while some express more rose than apricot. The 2 1/2-3" blooms are not as full or uniform as we would like. Still, we appreciate the variety for its productive plants and its ability to unify warm and cool hues in arrangements.
<i>Cosmos bipinnatus</i>	'Rubenza'	Cosmos				36-48"		Sun	As blooms mature, petals fade from a deep cranberry to an antique rose with hints of amber. The medium-height plants are very productive, flowering early and continuing to bloom for several weeks if cut or deadheaded. 2 1/2-3 1/2" blooms.
<i>Cosmos sulphureus</i>	'Bright Lights'	Cosmos				40-48"		Sun	Vigorous plants flower over a long season, creating rich color in the garden and a vibrant food source for bees, butterflies, and other pollinators. Plant architecture is tall but open and airy, so plants are less prone to lodging or falling over than <i>Cosmos bipinnatus</i> types. Excellent choice for color in summer gardens. 1 1/2-2" wide, double and semidouble blooms in shades of orange and gold. Sometimes used as cut flowers, though they do not last long in the vase, dropping petals after 5 days. Flowers are also used to create natural dyes for fiber and fabrics. Plants readily self-seed. Also known commonly as Dyer's cosmos and sulfur cosmos.
<i>Gomphrena globosa</i>	'Raspberry Cream'	Gomphrena				18-28"		Sun	Gomphrena in a glowing, creamy raspberry color. Uniform, productive plants. 1 1/2" blooms. Also known as globe amaranth and common globe amaranth.
<i>Gomphrena globosa</i>	'QIS™ Purple'	Gomphrena				18-28"		Sun	Productive accent flower for fresh and dried arrangements. 1 1/2" blooms on long stems. We have found the QIS™ (Quality in Seed) Series to be a good choice for cut-flower production for its stem quality, length, and uniformity. Also known as globe amaranth and common globe amaranth.
<i>Gomphrena haageana</i>	'QIS™ Carmine'	Gomphrena				18-28"		Sun	Unique, bright-rose-colored gomphrena for cute flowers. Glowing, 1 1/2" carmine blooms on long stems. Also known as globe amaranth and Rio Grande globe amaranth.
<i>Gomphrena haageana</i>	'Strawberry Fields'	Gomphrena				18-28"		Sun	Best red gomphrena for cut flowers. Brilliant flowers, 1 1/2" across, atop strong stems. Holds color exceptionally well when dried. Also known as globe amaranth and Rio Grande globe amaranth.
<i>Helichrysum bracteatum</i>	'Purple Red'	Strawflower				36-40"		Sun	Profuse bloomers for fresh and dried arrangements. Tall, well-branched plants produce dark wine (almost black) flowers 2-2 1/2" across. Fully open blooms reveal contrasting fiery-orange center. Also known as bracted strawflower.
<i>Helichrysum bracteatum</i>	'King Size Orange'	Strawflower				36-40"		Sun	Profuse bloomers for fresh or dried arrangements. Tall, well-branched plants produce double flowers 2-2 1/2" across. Blooms are fiery orange with hints of red and gold. Also known as bracted strawflower.
<i>Helichrysum bracteatum</i>	'Bright Rose'	Strawflower				36-40"		Sun	Profuse bloomers for fresh or dried arrangements. Tall, well-branched plants produce double flowers 2-2 1/2" across. Blooms are shades of hot pink and rose at the petal tips. Also known as bracted strawflower.
<i>Pelargonium x hortorum</i>	'Maverick™ Orange'	Geranium				12-16"		Sun to part shade	3-5" flower heads on compact, densely branched plants. Blooms spring through late summer, providing a long flowering window and color all season long. Ideal for containers, window boxes, and garden beds. Tolerates heat and humidity. Orange-red blooms contrast with dark green foliage. To maintain flowering and vigor, deadhead plants occasionally.

Vegetables									
<i>Solanum lycopersicum</i>	'Dr. Wyche's Yellow'	Tomato							Robust flavor. Golden fruits with meatier texture, richer flavor, and fewer blemishes than others in its class. Larger with a more flattened shape than Valencia at 10-16 oz. Gorgeous fruits command attention at market, or on your BLT. Indeterminate. USDA Certified Organic.
<i>Solanum lycopersicum</i>	'Cherokee Green'	Tomato							Unique color, great flavor. Said to be one of the best green tomatoes. Medium-size, 8+ oz. green fruits acquire some yellowish-orange color on the blossom end when ripe. Lots of bold, acidic, complex tomato flavor. Indeterminate. USDA Certified Organic.
<i>Solanum lycopersicum</i>	'Lucky Tiger'	Tomato							As Lucky Tiger ripens, the green striping becomes more defined and the background turns red as the interior marbling develops. The overall effect when ripe is of a red tomato with prominent green striping. Excellent sweet, tart flavor. Like all the Artisan™ tomatoes, Lucky Tiger was bred with high vigor to perform under tough conditions. 25-30 gm. fruits. Indeterminate. USDA Certified Organic.

Scientific Name	Cultivar	Common Name	Qty	Size	Price	MATURE HEIGHT	MATURE WIDTH	SUN REQUIREMENTS	DESCRIPTION
<i>Solanum lycopersicum</i>	'Pink Berkeley Tie Dye'	Tomato							Unique appearance with heirloom-quality flavor. 8-12 oz. fruits are dark pink with green striping, and the flesh is pink with yellow streaks. The flavor is outstanding - sweet and complex like the finest heirlooms. Compact Indeterminate. USDA Certified Organic.
<i>Lactuca sativa</i>	'Allstar' Gourmet lettuce Mix	Lettuce							A specially designed blend based on two years of trial research to make your salad mix stand out from the crowd. Selected varieties yield darker reds and greens even under low-light conditions. Ruffled edges and unique leaf shapes provide loft, interesting texture, good shelf life, and fancy appearance. Includes green oakleaf, red oakleaf, green romaine, red romaine, lollo rossa, and red leaf lettuces.
<i>Lactuca sativa</i>	'Cherokee'	Lettuce							Darkest red leaves and a long harvest window. Thick, crisp, dark red leaves with good flavor. Similar appearance to Magenta except much darker red color, though not quite as sweet. Very slow bolting with excellent tolerance to heat and bottom rot.
<i>Solanum lycopersicum</i>	'Zapotec Oaxacan Ribbed'	Tomato							These hollow, ruffled pink fruits have origins dating back to the Zapotec Indians of Oaxaca, Mexico. Zapotec Oaxacan tomato plants produce large, 8-16oz, ribbed tomato with pink-red flesh.
<i>Solanum lycopersicum</i>	'Purple Calabash'	Tomato						Full Sun	A drought tolerant, purple heirloom tomato dating back to the Aztecs of pre-Columbian Mexico. Probably the most 'purple' of all the purple varieties. The plant produces high yields of 9 to 12 oz deep purple-burgundy beefsteak tomatoes. Perfect for salads, slicing, and sandwiches. Also great for sauces and paste.
<i>Solanum lycopersicum</i>	'Mexico Midget'	Tomato							Mexico Midget tomato plants produce lots of ½-¾" dark red cherry tomatoes on each plant. Huge tomato flavor for such small fruits. A delicious snacking tomato. Easy to grow in a container.
<i>Solanum lycopersicum</i>	'Costoluto Genovese'	Tomato							Fruit are rather flattened and quite attractive with their deep ribbing. This variety is a standard in Italy for both fresh eating and preserving; known for its intensely flavorful, deep red flesh. This variety has also become very popular with chefs.
<i>Solanum lycopersicum</i>	'Brandywine, Sudduth Strain'	Tomato							A beefsteak tomato that produces large pink fruits, which grow up to 2 pounds.
<i>Solanum lycopersicum</i>	'Tennessee Britches'	Tomato							Tall, indeterminate plants that yield plentiful crops of 1-2 lb., ruffled, dark-pink, beefsteak tomatoes with robust and excellent sweet flavors. An excellent tomato for slicing into sandwiches or salads.
<i>Solanum lycopersicum</i>	'Pineapple'	Tomato							Pineapple is an heirloom garden favorite that grows to up to 2 lbs. Indeterminate, regular leaf plant produces huge, slightly flattened, yellow beefsteak tomatoes with a red blushing and streaks on the outside. It's yellow interior contains few seeds and a red star-burst in the center. Taste is wonderfully mild with tropical fruity-sweet flavors. Great old-fashioned full , complex flavors. A good choice for slicing into sandwiches or salads.
<i>Solanum lycopersicum</i>	'Lucky Cross'	Tomato							A fabulous tomato. Red-yellow bicolor fruit with excellent productivity, disease resistance and taste.
<i>Solanum lycopersicum</i>	'Middle Tennessee Low Acid'	Tomato							Tall, indeterminate, regular leaf plant that produces abundant yields of 1-2 lb. pink, beefsteak tomatoes with excellent mildly sweet flavors. Recommended for folks who can't eat tomatoes with any pronounced acid.
<i>Solanum lycopersicum</i>	'Oaxacan Jewel'	Tomato							A pre-Columbian Mexican heirloom tomato. Indeterminate, regular leaf plant that produces beautiful 1-2 pound, yellow beefsteak tomato with red streaks throughout the fruit with brilliant red marbling inside the flesh. Wonderfully rich, sweet, fruity flavors with a well-balanced acidic finish.
<i>Solanum lycopersicum</i>	'Paul Robeson'	Tomato							This "black" beefsteak tomato is slightly flattened, round, and grows to 4-inches. Its deep, rich colors, a dusky, dark-red, with dark-green shoulders, and red flesh in its center, stand it apart from others. Very flavorful fruits with luscious, earthy, exotic flavors and good acid/sweet balance
<i>Solanum lycopersicum</i>	'Cherokee Chocolate'	Tomato							Big, sprawling vigorous plants that yield 3-4-inch, 10-14 oz., mahogany-colored beefsteak tomatoes. Cherokee Chocolate has developed a great following among celebrity chefs because of its exceptionally rich, complex, tomato flavors and wonderful chocolaty appearance.
<i>Solanum lycopersicum</i>	'Spear's Tennessee Green'	Tomato							Regular-leaf tomato plants that yield an abundance of 8-10 oz., slightly flattened, round, emerald green and amber-colored, tomatoes that excels in it's taste with sweet, well-balanced flavors with a tinge of spice and citrus. Lots of that old-fashioned tomato flavor. A rare and historic tomato variety.
<i>Solanum lycopersicum</i>	'Lillian's Yellow'	Tomato							Big indeterminate tomato plants that yield 10-16 oz., clear to orangy-yellow, fragile, thin-skinned, beefsteak tomatoes that have mildly sweet, citrusy flavors, juicy flesh and very few seeds. A perfect salad tomato.

Herbs									
<i>Ocimum basilicum</i>	'Amethyst Improved'	Basil Genovese-type						Full Sun	Large 2-3" long, turned-down leaves. This stunning basil is nearly black in color. Purple flowers and red leaves make an attractive garnish. Ht. 16-20". Edible Flowers: Use the flowers in any recipe that calls for basil, or to garnish drinks, salads, soups, pasta, and desserts. Flavor is of intense basil.
<i>Ocimum basilicum</i>	'Lettuce Leaf'	Basil Heirloom						Full Sun	Heirloom. Large, delicately crinkled leaves are both beautiful and full of that basil flavor we love. Use as a wrap or in place of lettuce to elevate dishes.
<i>Ocimum basilicum</i>	'Mia Prospera'	Basil Genovese-type						Full Sun	Semi-compact Genovese, highly resistant to downy mildew.
<i>Ocimum basilicum</i>	'Treviso'	Basil Genovese-type							
<i>Ocimum x citriodorum</i>		Basil Lemon							
<i>Anethum graveolens</i>	'Bouquet'	Dill							
<i>Coriandrum sativum</i>	'Long Standing'	Cilantro

<i>Chamaemelum nobile</i>		Roman Chamomile							
<i>Matricaria chamomilla</i>		Common Chamomile							
<i>Eucalyptus polyanthemos</i>	'Silver Plate'	Eucalyptus				36-60"		Sun	A favorite in our trials. Silvery green leaves shimmer on tall stems. Upright plants produce sturdy stems that are easy to strip and clean. Large round leaves alternate on reddish-green stems. Some variability in plant height—in our trials, plants ranged from 30–60" tall, with most reaching at least 48". Tender perennial in Zones 9–11.
<i>Eucalyptus cinera</i>	'Silver Dollar'	Eucalyptus				24-36"		Sun	Large silvery blue-green leaves appear to be strung on the stem. The most popular foliage for fresh, dried, or preserved use for large bunches and decorating. Also known as gum and euc. Tender perennial in Zones 9–11.
<i>Eucalyptus citriodora</i>	'Lemon Bush'	Eucalyptus				24-36"		Sun	Lemon scented foliage. Medium-green, 2–7", sword-shaped leaves that produce a strong citronella fragrance. Leaf and stem tips turn a lovely red color in late summer/fall. Less durable foliage than standard eucalyptus.
<i>Lavender angustifolia</i>	Various Cultivars	Lavender							
<i>Lavender multifida</i>	'Spanish Eyes'	Lavender							
<i>Salvia officinalis</i>	'Garden'	Sage
